1985 An Argument For Man:

1985, an Argument for Man Leonard Gross,1971 **Handbook of Gender and Work** Gary N. Powell,1999-07-29 The Handbook of Gender and Work provides a comprehensive overview and synthesis of the literature and knowledge about gender and work It equips the reader with a solid understanding of where we stand on gender and work issues and what the next directions for research and assessment will be Under the skilled leadership of editor Gary N Powell an outstanding group of multidisciplinary and international researchers and scholars deliver their summary and analysis of current research and their views on how gender and work intersect along a variety of societal economic interpersonal and organizational paradigms Topics include Gender gap in earnings Sex segregation of occupations Romantic relationships in organizational settings Stress and work Affirmative action Sexual harassment Mentoring Women as leaders The glass ceiling Women entrepreneurs Corporate masculinity Gender and ethnicity Gender bias in hiring and evaluating The Handbook of Gender and Work will be an invaluable resource for students scholars and professionals interested in increasing their understanding of gender related phenomena that occur in the workplace Anyone seeking guidance for dealing with specific situations that arise as a result of the influence of gender or in identifying useful directions for future will want to own a copy of this Handbook **Acting Emotions** Elly Konijn,2000 Actors and actresses play characters such as the embittered Medea or the lovelorn Romeo or the grieving and tearful Hecabe The theatre audience holds its breath and then sparks begin to fly But what about the actor Has he been affected by the emotions of the character he is playing What sgoing on inside his mind The styling of emotions in the theatre has been the subject of heated debate for centuries In fact Diderot in his Paradoxe sur le comedien insisted that most brilliant actors do not feel anything onstage This greatly resembles the detached acting style associated with Bertolt Brecht which in turn stands in direct opposition to the notion of the empathy oriented emotional reality of the actor which is most famously associated with the American actingstyle known as method acting The book s survey of the various dominant acting styles is followed by an analysis of the current state of affairs regarding the psychology of emotions By uniting the psychology of emotions with contemporary acting theories the author is able to come to the conclusion that traditional acting theories are no longer valid for today s actor Acting Emotions throws new light on the age old issue of double consciousness the paradox of the actor who must nightly express emotions while creating the illusion of spontaneity In addition the book bridges the gap between theory and practice by virtue of the author s large scale field study of the emotions of professional actors In Acting Emotions the responses of Dutch and Flemish actors is further supplemented by the responses of a good number of American actors The book offers a unique view of how actors act out emotions and how this acting out is intimately linked to the development of contemporary theatre *Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory* Musingafi, Maxwell Constantine Chando,Mafumbate, Racheal,Khumalo, Thandi Fredah,2021-04-23 Much of our understanding of the world our societies and

ourselves rests on theories and knowledge generated predominantly by men of certain nationalities and economic classes This male dominated and culturally specific theorizing and knowledge have generally resulted in the exclusion of women and other groups from the process of formal theorizing and knowledge building Feminism argues that the male dominated knowledge represents a skewed perception of reality and is only partial knowledge Feminism is a generalized wide ranging system of ideas about social life and human experience developed from a woman centered perspective It treats women as the central subjects in the investigative process and seeks to see the world from the distinctive vantage points of women in the social world The best way to empower women and better the situation for women is to take women s daily experiences and their informal theorizing into account and on this basis adopt feminist approaches to building theory and knowledge Philosophising Experiences and Vision of the Female Body Mind and Soul Historical Context and Contemporary Theory provides an overview and introduction to the study of feminist theory and practice in the social sciences This book provides a starting point for further and more advanced study of the nexus of feminism gender and development and translates feminist theory and concepts into practice The chapters investigate in a historical context mainstream and contemporary theories of feminism and gender studies This book is ideal for post graduate students of social science researchers of development management business management public governance and gender and development activists feminists and practitioners stakeholders researchers academicians and students interested in feminist theory and knowledge building
