1985 Michelin Italia:

Michelin Red Guide to Italia, 1985 Michelin Travel Publications, 1985-03 **Regulating the Internal Market**

Niamh Nic Shuibhne, 2006-01-01 The insight given by the book is absolutely indispensable for those who interact with the internal market. It is a goldmine of thought waiting to be discussed, used and put to the test. Ida Otken Eriksson, *European Law Journal*. This fascinating book explores the management of the internal market from a legal perspective. While the EU agenda is currently dominated by the processes of Treaty reform, this assessment of both market and constitutional governance evaluates the coherence or otherwise of the project at the very core of European integration. Confronted with a free market nearing completion, with a relatively formulaic application of internal market law, the book portrays how this is mirrored in a growing tendency to hand the market back to the Member States and increasingly to authorities and bodies, both public and private, therein. We see too, however, an internal market framework that strains to cope with a series of challenges, both internal and external to the EU itself. The approach of the contributors is twofold: on one hand, they reflect thematically on questions of regulation which cut across the spectrum of the market and its freedoms; on the other hand, they adopt more sector-specific lenses, including, for example, regulation of the media and the Internet, through which contemporary regulatory dynamics can be reconsidered. Providing analysis of contemporary challenges facing the internal market, this book will be of great interest to academics, researchers and students working in the field of EC law. It will also appeal to national and Community policy makers as it seeks to locate the constitutional and regulatory boundaries of the internal market sphere.

International Trade Disputes and EU Liability Anne Thies, 2013-04-18. The European Union has become the respondent of several international trade disputes. This book examines the right to compensation for damage resulting from retaliatory measures imposed under the system of the World Trade Organization in disputes triggered by the EU. Anne Thies evaluates the implications of the EU's membership in the WTO for its domestic system of rights and judicial protection. Emphasising the necessity of maintaining EU standards of protection independently of the external dimension of EU action, the book offers suggestions on how the current gap of protection could be filled while upholding the scope for manoeuvre of the EU institutions on the international plane. In addition, it places the issue in its broader context of the relationship between

international law and EU law on the one hand and the discretion of the EU as a global actor and standards of individual rights protection under EU law on the other **Gazzetta ufficiale della Repubblica italiana.
