**PLOTTO Genie: The Endless Story** Dr. Robert C. Worstell,2017-10-19 How to Build Plots That Grab Your Readers and Won't Let Go By Building and Integrating Characters Story Arcs and Engaging Themes Ever wonder what makes a great book or movie different from a pitiful excuse for entertainment Mostly it starts with a plot But what makes a plot work From months of my own studying the vast numbers of approaches to plotting it's clear that there is still a wide gulf between the mechanics of a plot and having a working framework usable for any writer This led to the study of two authors who had already done their own studies of which plots made successful entertainment and actually built their own still popular plot generators based on this knowledge Many well known and obscure writers have used these

methods instead of being dogged by writer's block The answers to what makes a great plot are simple and few The bonus in this book is giving you your own plot generator to help you when you're stuck Get Your Copy Today **Law, Narrative and Masterplot** Chris Bevan, David Gurnham, 2025-06-13 The book brings together a range of socio-legal and law and humanities scholars to elaborate and explore the idea of the legal masterplot There is a class of narrative sometimes referred to as masterplot or metanarrative that stands above the plethora of other stories plots and myths that may be found in law This book focuses on the masterplot concept as providing a productive yet largely under-explored way of seeing understanding and responding to legal controversies and socio-legal problems Masterplots may be understood as those prevalent and enduring ideas and narratives that form the basis of expectations assumptions stereotypes and prejudices In legal contexts masterplots give shape and significance to particular experiences or issues In aligning with them legal arguments judgments and reforms gain acceptability and can be presented as authoritative proportionate and legitimate Reflecting from different legal perspectives and subdisciplines on the masterplots at play in our current legal frameworks this collection illuminates the often hidden ways in which law functions This book will appeal to students and scholars of socio-legal studies sociology social policy and humanities approaches to law Catalog of Copyright Entries.
