

The Birth Lottery: Changing the Odds

Bringing new life into the world is one of the most dangerous things a woman can do.'

Unfortunately, the chances that a new mother and her baby will survive or go on to thrive are vastly different depending on where in the world they live.

One of the most crucial factors for survival of each mother and child is having the right intervention or tool – drug, device, diagnostic – at the right time. That simple fact – having the right tool, or not having it – can mean the difference between life and death.

Global health research and development (R&D) is the process that creates new tools to save lives or adapts existing technologies to make them better suited to poor and remote settings where electricity, refrigeration, transport and skilled health staff are hard to come by.

These innovations can change the fates of mothers and babies for the better, and improve the interconnected fortunes of whole families, communities and nations.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
