Bitter Rehearsal:

Bitter Rehearsal Charlie Whitham, 2002-12-30 Promoted as a means for rectifying the problems of a region in extreme need the Anglo American Caribbean Commission AACC only exposed and exacerbated the underlying antagonisms between Britain and the United States over the economic and political structure of the post war world This study places the AACC formed in 1942 within the context of the Anglo American wartime special relationship and examines the political economic and security motives at the heart of this unique and little known collaboration It exposes the determination of the United States to use exigencies of war to impose its post war plans upon Britain and the tenacity of the British to defend even the smallest and least regarded of its possessions regardless of local and international opposition The AACC was a battleground of conflicting British and American visions of a new West Indies and it would thus serve as a rehearsal for key debates that would emerge at the end of the war For the United States the AACC was a vehicle for promoting America's broad postwar ambitions in the West Indies for Britain it was simply part of the price that had to be paid for American assistance in the war effort Debates within the AACC over the future of West Indian sugar the regulation of tariffs and trade constitutional reform and the expansion of civil aviation mirrored wider British and American differences *Science at the end of empire* Sabine Clarke, 2018-09-13 This is the first account of Britain's plans for industrial development in its Caribbean colonies something that historians have usually said Britain never contemplated It shows that Britain's remedy to the poor economic conditions in the Caribbean gave a key role to laboratory research to re-invent sugarcane as the raw material for making fuels plastics and drugs *Science at the end of empire* explores the practical and also political functions of scientific research and economic advisors for Britain at a moment in which Caribbean governments operated with increasing autonomy and the US was intent on expanding its influence in the region Britain's preferred path to industrial development was threatened by an alternative promoted through the Caribbean Commission The provision of knowledge and expertise became key routes by which Britain and America competed to shape the future of the region and their place in it An electronic edition of this book is freely available under a Creative Commons CC BY licence [Exploring Kenotic Christology](#) C. Stephen Evans, 2006 This collection of essays by a team of Christian philosophers theologians and biblical scholars explores the viability of a kenotic account of the incarnation Such an account is inspired by Paul's lyrical claims in Philippians 2:6-11 that Christ Jesus though God in nature emptied himself or made himself nothing by becoming human The biblical support for such a view can be found throughout the four gospels and the book of Hebrews as well as in other places A kenotic account takes seriously the possibility that Christ in becoming incarnate temporarily divested himself of such properties as omnipotence omniscience and omnipresence Several of the contributors argue that this view is fully orthodox and that it has great strengths in giving us a picture of a God who is willing to become completely vulnerable for the sake of human beings and one that is completely consistent with the very human portrait of Jesus in the New Testament The proponents of kenotic Christology argue that the

philosophical accounts of God's nature that have led to rejection of this theory ought themselves to be subjected to criticism in light of the biblical data. Some essays test the theory by raising critical questions and arguing that traditional accounts of the incarnation can achieve the goals of kenotic theories as well as kenotic theories can. The book also explores the implications of a kenotic view of the incarnation for philosophical theology in general and the doctrine of the Trinity in particular and it concludes with essays that examine the validity of the ideal of kenosis for women and a challenge to traditional Christology to take a kenotic theory seriously. Making Friends with Hitler Ian Kershaw, 2005-10-25 Ian Kershaw's biography of Adolf Hitler is widely regarded as the definitive work on the subject as well as one of the most brilliant biographies of our time. In Making Friends with Hitler the great scholar shines remarkable new light on decisions that led to war by tracing the extraordinary story of Lord Londonderry one of Britain's wealthiest aristocrats, cousin of Winston Churchill, confidant of the king and the only British cabinet member to outwardly support the Nazi party. Through Londonderry's tragic tale Kershaw shows us that behind the accepted dogma of English appeasement and German bullying is a much more complicated and interesting reality full of miscalculations on both sides that proved to be among the most fateful in history
