Black Conceit:

Black Conceit John Leonard, 1973 *A World of Local Voices* Klaus Martens, Paul Duncan Morris, Arlette Warcken, 2003
The present volume contains papers and poems presented at Saarland University's international conference *A World of Local Voices Poetry in English Today* October 22-23 1999 and the Day of International Poetry October 24 1999 both organised by the university's Department of North American Literature and Culture. The conference set out to explore how the modernist tendency towards overarching concepts and a poetry of ideas is slowly being superseded by a more modest poetry of place which at the same time seems to be loosely subsumed within the unifying medium of English in its various forms. The Day of International Poetry was meant to put into operation some of the poetic issues discussed during the conference by asking poets from several English speaking countries Canada India Jamaica and the USA to contribute their individual voices to an international reading of poetry. This volume comprises critical contributions which deal with the interplay of aesthetic cultural and political forces in contemporary poetry. The common reference of this collection is poetry written in varieties of the English language including translations. The essays show awareness of the current critical debates concerning postcolonialism and intercultural literary relations while also suggesting new paradigms of critical understanding based on the analyses of individual poetic expression. As a supplement selected poets and translators have submitted individual poetic texts with accompanying commentaries.

Melville and the Idea of Blackness Christopher Freeburg, 2012-08-27
By examining the unique problems that blackness signifies in *Moby Dick*, *Pierre*, *Benito Cereno* and *The Encantadas*, Christopher Freeburg analyzes how Herman Melville grapples with the social realities of racial difference in nineteenth century America. Where Melville's critics typically read blackness as either a metaphor for the haunting power of slavery or an allegory of moral evil, Freeburg asserts that blackness functions as the site where Melville correlates the sociopolitical challenges of transatlantic slavery and US colonial expansion with philosophical concerns about mastery. By focusing on Melville's iconic interracial encounters, Freeburg reveals the important role blackness plays in Melville's portrayal of characters arduous attempts to seize their own destiny, amass scientific knowledge and perfect themselves. A valuable resource for scholars and graduate students in American literature, this text will also appeal to those working in American, African American and postcolonial studies.

Black Conceit David Charles Cody, 1987 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1975 *Detecting Texts* Patricia Merivale, Susan Elizabeth Sweeney, 2011-06-07
Although readers of detective fiction ordinarily expect to learn the mystery's solution at the end, there is another kind of detective story the history of which encompasses writers as diverse as Poe, Borges, Robbe-Grillet, Auster and Stephen King that ends with a question rather than an answer. The detective not only fails to solve the crime but also confronts insoluble mysteries of interpretation and identity. As the contributors to *Detecting Texts* contend, such stories belong to a distinct genre: the metaphysical detective story in which the detective hero's inability to interpret the mystery inevitably casts doubt on the

reader's similar attempt to make sense of the text and the world. *Detecting Texts* includes an introduction by the editors that defines the metaphysical detective story and traces its history from Poe's classic tales to today's postmodernist experiments. In addition to the editors, contributors include Stephen Bernstein, Joel Black, John T. Irwin, Jeffrey T. Nealon, and others.

Advances in Contemplative Psychotherapy Joseph Loizzo, Fiona Brandon, Emily J. Wolf, Miles Neale, 2023-05-30 *Advances in Contemplative Psychotherapy* offers mental health professionals of all disciplines and orientations the most comprehensive and rigorous introduction to the art of integrating contemplative psychology, ethics, and practices including mindfulness, compassion, and embodiment techniques. It brings together clinicians, scholars, and thought leaders of unprecedented caliber, featuring some of the most eminent pioneers in the rapidly growing field of contemplative psychotherapy. The new edition offers an expanded array of effective contemplative interventions, contemplative psychotherapies, and contemplative approaches to clinical practice. New chapters discuss how contemplative work can effect positive psychosocial change at the personal, interpersonal, and collective levels to address racial, gender, and other forms of systemic oppression. The new edition also explores the cross-cultural nuances in the integration of Buddhist psychology and healing practices by Western researchers and clinicians and includes the voices of leading Tibetan doctors. *Advances in Contemplative Psychotherapy* offers a profound and synoptic overview of one of psychotherapy's most intriguing and promising fields.

Herd Book of Large Black Pigs Large Black Pig Society, 1924 *Enchanted New York* Kevin Dann, 2020-10-27 A fantastical field guide to the hidden history of New York's magical past, Manhattan has a pervasive quality of glamour, a heightened sense of personality generated by a place whose cinematic, literary, and commercial celebrity lends an aura of the fantastic to even its most commonplace locales. *Enchanted New York* chronicles an alternate history of this magical isle. It offers a tour along Broadway, focusing on times and places that illuminate a forgotten and sometimes hidden history of New York through site-specific stories of wizards, illuminati, fortune tellers, magicians, and more. Progressing up New York's central thoroughfare, this guidebook to magical Manhattan offers a history you won't find in your *Lonely Planet* or *Fodor's* guide, tracing the arc of American technological alchemies from Samuel Morse and Robert Fulton to the Manhattan Project, to Mesmeric physicians, to wonder-working Madame Blavatsky and seers Helena Roerich and Alice Bailey. Harry Houdini appears and disappears as the world's premier stage magician, his feats of prestidigitation fade away to reveal a much more mysterious and meaningful marquee of magic. Unlike old world cities, New York has no ancient monuments to mark its magical adolescence. There is no local memory embedded in the landscape of celebrated witches, warlocks, gods, or goddesses, no myths of magical metamorphoses. As we follow Kevin Dann in geographical and chronological progression up Broadway from Battery Park to Inwood, each chapter provides a surprising picture of a city whose ever-changing fortunes have always been founded on magical activity.
