## **Business Studies September 2014 Question Paper From Eastern Cape:**

**Diverse Excursions in the Southeast: Paleozoic to Present** Ann E. Holmes, 2015-03-09 This volume contains field guides to the 2015 GSA Southeastern Section Meeting's field trips. The guides explore geologic history and visit four regional geologic provinces: the Nashville dome, Blue Ridge Valley and Ridge, and Cumberland Plateau.

**Policing and Boundaries in a Violent Society** Guy Lamb, 2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service (SAPS). By means of a historical analysis of South Africa, this book introduces a new concept: police frontierism, which illuminates the nature of the relationships between the police, policing, and boundaries and can potentially be used for future case study research. Drawing on a wealth of research, this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary. Focusing on cases of high density police operations, public order policing, and the recent policing of the COVID-19 lockdown, this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa. This book will be of interest to scholars and students interested in policing in post-colonial societies characterised by high levels of violence as well as police work and police militarization.

**Prisoners of the Past** Steven Friedman, 2021-06-01 Building on the work of economic historian Douglass North and Ugandan political scholar Mahmood Mamdani, Friedman argues that the difficulties besetting South African democracy are legacies of the past, not products of the post-1994 era. South Africa's democracy is often seen as a story of bright beginnings gone astray, a pattern said to be common to Africa. The negotiated settlement of 1994, it is claimed, ended racial domination and created the foundation for a prosperous democracy, but greedy politicians betrayed the promise of a new society. In *Prisoners of the Past*, Steven Friedman astutely argues that this misreads the nature of contemporary South Africa. Building on the work of the economic historian Douglass North and the political thinker Mahmood Mamdani, Friedman shows that South African democracy's difficulties are legacies of the pre-1994 past. The settlement, which ushered in majority rule, left intact core features of the apartheid economy and society. The economy continues to exclude millions from its benefits while racial hierarchies have proved stubborn. Apartheid is discredited, but the values of the pre-1948 colonial era, the period of British colonization, still dominate. Thus, South Africa's democracy supports free elections, civil liberties, and the rule of law, but also continues past patterns of exclusion and domination. Friedman reasons that this path dependence is not, as is often claimed, the result of constitutional compromises in 1994 that left domination untouched. This bargain was flawed because it brought not too much compromise but too little. Compromises extended political citizenship to all, but there were no similar bargains on economic and cultural change. Using the work of the radical sociologist Harold Wolpe, Friedman shows that only negotiations on a new economy and society can free South

Africans from the prison of the past      *Development Planning in South Africa* John Reynolds, 2018-06-15 Celebrated as a beacon of democracy and reconciliation many people in South Africa continue to live in severe poverty particularly in the Eastern Cape Province Backed by the United Nations Development Programme the Eastern Cape s provincial government consequently launched an historically ambitious programme the Provincial Growth and Development Plan aimed at tackling the province s poverty unemployment and inequality over a ten year period in a radical policy overhaul Drawing on the author s first hand engagement with the planning process *Development Planning in South Africa* is an empirically rich study that utilises a strategic relational approach to explore the ways in which this unprecedented challenge was negotiated and eventually undermined by the South African state The first work of its kind the book provides an indispensable micro level study with profound implications for how state power is understood to be organised and expressed in state policy Relevant beyond South Africa to policy implementation in both developing and developed states globally the book is essential reading for students and scholars of government studies political economy development policy studies and social movements
