the student of the origins of Christianity there is naturally no period of Western history of greater interest and importance
than the first century of our era and yet how little comparatively is known about it of a really definite and reliable nature If it
be a subject of lasting regret that no non Christian writer of the first century had sufficient intuition of the future to record
even a line of information concerning the birth and growth of what was to be the religion of the Western world equally
disappointing is it to find so little definite information of the general social and religious conditions of the time Mead
examines all the available evidence about the life of Apollonius in this remarkable study Pukka scholarship and meticulous
research provide the reader with a fascinating look at the real Apollonius and his possible connections with Christianity www

Gospel Of Apollonius Of Tyana: Kenneth Sylvan Guthrie,2023-08-23 APOLLONIUS OF TYANA was a Roman philosopher and
philanthropist a contemporary of Philo Judaeus living A D 1 98 He studied with the Brahmans in India and the Sages in Egypt
he was known as a Pythagorean The source of his later life is the journal of his faithful friend Damis who from A D 43 98
accompanied him on his philosophical travels in India Ionia Rome Spain Africa Egypt and Sicily He was tried before the
emperor Domitian for the good he had done during his travels around the Roman empire He was protected by the celebrated
Aelian and escaped He was so revered that when the emperor Claudius Aurelian in A D 273 conquered his birthplace Tyana
he spared it on his account Julia Domna the empress of Septimius Severus urged Philostratus to write Apollonius s biography
giving him Damis s manuscript which she had preserved in her library The emperor Hadrian collected all the then extant
accessible letters of Apollonius and preserved them in his palace at Antium The emperor Vespasian had written him the
following letter Apollonius if like you all men would but cultivate philosophy and poverty they would flourish and be happy
Philosophy would be above corruption and poverty be respected Emperor Marcus Aurelius in A D 130 famous author of the
Meditations writes From Apollonius I have learned freedom of will and understanding steadiness of purpose and to look to

Tyana resembles Jesus Christ more than does any other person in antiquity at least if what his biographer Philostratus claims

is true According to their respective biographers in the Life of Apollonius of Tyana and in the canonical Gospels both ancient figures were renowned holy men miracle workers exorcists and itinerant teachers who lived in the first century AD Nevertheless many Bible professors and students have never heard of Apollonius Others who have heard of Apollonius often uncritically accept the testimony of Philostratus Some New Testament scholars who write about Apollonius are unaware of the numerous historical problems that plague Philostratus's book and of the other early sources that portray Apollonius as a sorcerer or charlatan This book serves as a guide for students professors or curious laypersons who are approaching the study of Apollonius for the first time This work explores ten key issues that will help the reader make an informed decision about Apollonius The book examines the ancient sources available for the study of Apollonius the historical accuracy of Philostratus's biography and the agendas of Philostratus and his royal patroness Julia Domna and provides a fulsome bibliography for those who wish to pursue these topics on their own

Apollonius of Tyana: The Philosopher Explorer and Social Reformer of the First Century AD George Robert Stowe Mead, To the student of the origins of Christianity there is naturally no period of Western history of greater interest and importance than the first century of our era and yet how little comparatively is known about it of a really definite and reliable nature If it be a subject of lasting regret that no non-Christian writer of the first century had sufficient intuition of the future to record even a line of information concerning the birth and growth of what was to be the religion of the Western world equally disappointing is it to find so little definite information of the general social and religious conditions of the time The rulers and the wars of the Empire seem to have formed the chief interest of the historiographers of the succeeding century and even in this department of political history though the public acts of the Emperors may be fairly well known for we can check them by records and inscriptions when we come to their private acts and motives we find ourselves no longer on the ground of history but for the most part in the atmosphere of prejudice scandal and speculation The political acts of Emperors and their officers however can at best throw but a dim side light on the general social conditions of the time while they shed no light at all on the religious conditions except so far as these in any particular contacted the domain of politics As well might we seek to reconstruct a picture of the religious life of the time from Imperial acts and rescripts as endeavour to glean any idea of the intimate religion of this country from a perusal of statute books or reports of Parliamentary debates The Roman histories so called to which we have so far been accustomed cannot help us in the reconstruction of a picture of the environment into which on the one hand Paul led the new faith in Asia Minor Greece and Rome and in which on the other it already found itself in the districts bordering on the south east of the Mediterranean It is only by piecing together laboriously isolated scraps of information and fragments of inscriptions that we become aware of the existence of the life of a world of religious associations and private cults which existed at this period Not that even so we have any very direct information of what went on in these associations guilds and brotherhoods but we have sufficient evidence to make us keenly regret the absence of further knowledge Difficult as this

field is so till it is exceedingly fertile in interest and it is to be regretted that comparatively so little work has as yet been done in it and that as is so frequently the case the work which has been done is for the most part not accessible to the English reader What work has been done on this special subject may be seen from the bibliographical note appended to this essay in which is given a list of books and articles treating of the religious associations among the Greeks and Romans But if we seek to obtain a general view of the condition of religious affairs in the first century we find ourselves without a reliable guide for of works dealing with this particular subject there are few and from them we learn little that does not immediately concern or is thought to concern Christianity whereas it is just the state of the non Christian religious world about which in the present case we desire to be informed
