Birnbaums Paris 1993:

Birnbaum's Paris 1993 Alexandra Mayes Birnbaum,1992-10 **Birnbaum's France 1993** Alexandra Mayes Birnbaum,1992-10 *Birnbaum's Paris, 1994* Alexandra Mayes Birnbaum,1993 Paris at its best including eight great walking tours of the city's provocative and beautiful sites *Studies in Contemporary Jewry: XI: Values, Interests, and Identity* Peter Y. Medding,1995 This collection of original articles addresses the often conflicting roles of values interests and identity in contemporary Jewish politics with its focus on Jews and contemporary politics particularly the interplay of politics and Jewish history this new work makes an outstanding contribution to the scholarly literature *Monumental Intolerance: Jean Baffier, a Nationalist Sculptor in Fin-de-Si_cle France* , But Baffier would probably not have received wide public attention if he had not also become a folklorist a promoter of regional culture and a militant nationalist with beliefs so violent that he attempted a political assassination **BOOK JACKET** **The Politics of Belonging** Alain Dieckhoff,2004-01-01 The Politics of Belonging represents an innovative collaboration between political theorists and political scientists for the purposes of investigating the liberal and pluralistic traditions of nationalism Alain Dieckhoff introduces an indispensable collection of work for anyone dealing with questions of identity ethnicity and nationalism **The Long Presidency** Julius W Friend,2018-02-07 A balanced yet critical review of Mitterrand's fourteen year presidency Friend has crowned a long career as an expert on French politics with this astute analysis and assessment of a decisive chapter in the history of French Socialism This is contemporary history at its best Richard Kuisel SUNY Stony Brook An intelligent and highly readable account of the Mitterrand years that Friend argues have changed the political landscape of France A very good example of instant history Fritz Stern Foreign Affairs In this informed and balanced treatment of recent French history Julius Friend analyzes the changes successes and failures in the long and checkered record of the former French president Francois Mitterrand Extensive interviews with French politicians and intellectuals complement his original research Mitterrand was in office longer than any other democratic president but Friend asks us to consider the legacy of such a term Elected in 1981 on a platform of radical reorganization of the French economy and society Mitterrand was compelled to change policy within two years Conventional austerity replaced socialist measures and his second term was spotted by scandal and weakened by illness The Mitterrand era saw the end of French hopes to be first among equals in Western Europe instead Mitterrand inaugurated a partnership with unified Germany in the European Union **Books in Print Supplement** ,1994

Paperbound Books in Print ,1992 *The Origins of World War Two* Robert Boyce,Joseph A. Maiolo,2017-03-14 No issue in modern history has been more intensively studied or subject to wider interpretation than the origins of the Second World War A conflict involving three arguably four major aggressor Powers operating simultaneously but largely separately on two continents inevitably raises complex theories and debates Each participating power has its own history and each one must take account of various influences upon the behaviour of its soldiers and statesmen His wide ranging collection of

original essays each by an international expert in their field covers all aspects of the subject and highlights the controversy that continues to characterise current thinking on the origins of the war Going beyond the usual Eurocentric approach Part I examines the roles of all seven of the Great Powers including Japan and the USA as well as the parts played by several of the lesser Powers such as Czechoslovakia Poland and China Part II contains chapters which explore key themes that cannot be fully understood within the context of any single country These themes include the role of ideology propaganda intelligence armaments economics diplomacy the neutral states peace movements and the social science approach to war Written in clear jargon free prose together these essays provide a comprehensive single volume text for students and teachers and are essential reading for all with an interest in the debates surrounding the causes of World War Two *Forthcoming Books*

Birnbaum's France, 1990 Stephen Birnbaum,1989-11 Birnbaum's Paris 1992 Stephen Birnbaum,1991-12 **The Metamorphosis of Marginal Images** Nurith Kenaan-Kedar,Asher Ovadiah,2001 **Gabriel Orozco** Ann Temkin,2009
From the developer of **Discourses of Citizenship in Contemporary France** Charles M. Hoffman,2004 This dissertation examines the evolution of citizenship as a public philosophy in France since 1981 The quarter century since 1981 has been marked by increasing ethnic and religious diversity the incomplete integration of second and third generation citizens as well as their non European immigrant parents and the rise of an anti liberal response from the new right and the National Front In the 1980s a new discourse of multiculturalism and a new social movement of anti racism emerged as a consequence of these factors In France however multiculturalism and the emergence of a participatory civil society represented an unexpected challenge to French republicanism a model of citizenship initially adumbrated in the late nineteenth century in a mostly rural state facing continued monarchist and counter revolutionary forces The dissertation analyzes the challenges of deep value pluralism and late modern individualism to the French republican idea Through the discourses and analyses of social and political theorists key public intellectuals and leaders in the anti racist movement I analyze the evolution of civil society since 1981 from its problematic origins in the right to difference to the more promising new citizenship politics I explain how neo republicanism a reaffirmation of the lay republic and the French mission civilisatrice came to replace the right to difference as the dominant model of citizenship by 1989 I argue that neo republicanism is an anachronism it represents the renewal of a combative la cit designed to wage a battle against religious sentiment and premodern communities during the first half of the Third Republic a period of modernization and nation building I theorize an enlarged conception of French la cit that can harmonize a participatory multiculturalism and a democratized republicanism Drawing upon the sociological resources of the new citizenship politics I sketch a model of participatory multicultural republicanism that can successfully manage value pluralism while still providing for the enlightened moral development of citizens The successful combination of multiculturalism and republicanism sketched in the study furnishes both a contribution to

comparative political theory and a modern vision of French exceptionalism *The Sherlock Holmes Journal*, 1996 The
