Aluminum Upcycled Carl A. Zimring, 2017-03-15 Tracing the benefits and limitations of repurposing aluminum Besides being the right thing to do for Mother Earth recycling can also make money particularly when it comes to upcycling a zero waste practice where discarded materials are fashioned into goods of greater economic or cultural value In *Upcycling Aluminum* Carl A Zimring explores how the metal s abundance after World War II coupled with the significant economic and environmental costs of smelting it from bauxite ore led to the industrial production of valuable durable goods from salvaged aluminum Beginning in 1886 with the discovery of how to mass produce aluminum the book examines the essential part the metal played in early aviation and the world wars as well as the troubling expansion of aluminum as a material of mass disposal Recognizing that scrap aluminum was as good as virgin material and much more affordable than newly engineered metal designers in the postwar era used aluminum to manufacture highly prized artifacts Zimring takes us on a tour of post 1940s design examining the use of aluminum in cars trucks airplanes furniture and musical instruments from 1945 to 2015 By viewing upcycling through the lens of one material Zimring deepens our understanding of the history of recycling in industrial society He also provides a historical perspective on contemporary sustainable design practices Along the way he challenges common assumptions about upcycling s merits and adds a new dimension to recycling as a form of environmental absolution for the waste related sins of the modern world Raising fascinating questions of consumption environment and desire *Upcycling Aluminum* is for anyone interested in industrial and environmental history discard studies engineering product design music history or antiques

[Evangelical Violence](#) Christopher Rhodes, 2026-02-13 *Evangelical Violence* examines the long history of western states and actors attempting to export and impose Christianity on non western peoples and the use of state administered violence to achieve these Evangelical goals This book explores the theological underpinnings of western attempts to spread Christianity and examines how variations in the interpretation of this theological imperative have impacted beliefs and practices of western states The book argues that throughout the past millennium the foreign policy of western states has been heavily influenced by the Christian concept of evangelism based on the scriptural Great Commission the command to go and make disciples of all nations When evangelism has been conceived in collective rather than individualistic terms an extension of the concept of Christian Nationalism to international relations violence has been readily and more intensely used against non Christian societies to achieve both conversion and secular goals whereas a more individualistic understanding of conversion has constrained violence and promoted persuasive and

humanitarian focused outreach The book analyzes the relationship between prevailing western concepts of evangelism and the use of force against non western societies through a series of case studies that include the Crusades the first and second waves of western colonization of the Americas Africa and Asia westward expansion of the United States and modern examples of international interventionism This book will appeal to students and scholars interested in Christian nationalism colonialism the history of international relations and the intersection of religion and politics *Vintage Lined Notebook Greetings from Bismarck, North Dakota* ,2023-08 Introducing the Vintage Notebook Greetings from Bismarck North Dakota a delightful companion for all your writing endeavors Featuring 150 lined pages immerse yourself in the charm of a classic vintage travel postcard illustration adorning its cover With its full color decorative vintage art and versatile functionality this notebook is an ideal companion for journaling planning trips tackling writing projects organizing to do lists or simply capturing thoughts on any occasion Found Image Press Vintage Journals take you on a nostalgic journey featuring carefully curated vintage art that celebrates your favorite places hobbies and interests The front cover showcases a captivating classic piece of art sourced from our vast collection of over 60 000 pictures meticulously selected to transport you to a bygone era Immerse yourself in the allure of the past and thoughtfully crafted to inspire and accompany your creative ventures Details A5 5 8 x 8 2 inches 150 lined opaque pages Soft matte finish Soft matte finish [Violence and the Third World in International Relations](#) Randolph B.
