Black Athena Writes Back:

Black Athena Writes Back Martin Bernal, 2001-09-20 This book is Bernal's response to criticisms to his 1987 book BLACK ATHENA which argued for an Afro Asiatic origin for Greek civilization

The End of the West and Other Cautionary Tales Sean Meighoo, 2016-04-19 Most historical accounts of the West take it for granted that the guiding principles of the Western tradition reason progress and freedom have been passed down directly from ancient Greece to modern Europe evolving in isolation from all non Western cultures Today many political analysts and cultural critics maintain that the Western tradition is fast approaching its end for better or worse as it becomes more and more integrated with non Western cultures in an increasingly globalized world But what if we are witnessing something else entirely not the end of the West but rather another historical mutation of the idea of the West itself This groundbreaking work shows that whether the West is hailed as the source of all historical progress or scorned as the root of all cultural imperialism it remains a deeply problematic concept that is intrinsically connected to an ethnocentric view of the world In a critical reading of the continental philosophers Husserl Heidegger Levinas and Derrida as well as the postcolonial thinkers Said Mohanty Bhabha and Trinh Sean Meighoo strikes at the intellectual foundations of Western exceptionalism until its ideological supports show through Deconstructing the concept of the West in his provocative interpretations of Martin Bernal's controversial publication Black Athena and the Beatles second film Help Meighoo poses a formidable question to philosophers writers political analysts and cultural critics alike Can we mount an effective critique of Western ethnocentrism without reinforcing the very idea of the West

Classics, the Culture Wars, and Beyond Eric Adler, 2016-11-01 Beginning with a short intellectual history of the academic culture wars Eric Adler's book examines popular polemics including those by Allan Bloom and Dinesh D Souza and considers the oddly marginal role of classical studies in these conflicts In presenting a brief history of classics in American education the volume sheds light on the position of the humanities in general Adler dissects three significant controversies from the era the so called AJP affair which supposedly pitted a conservative journal editor against his feminist detractors the brouhaha surrounding Martin Bernal's contentious Black Athena project and the dustup associated with Victor Davis Hanson and John Heath's fire breathing jeremiad Who Killed Homer He concludes by considering these controversies as a means to end the crisis for classical studies in American education How can the study of antiquity and the humanities thrive in the contemporary academy This book provides workable solutions to end the crisis for classics and for the humanities as well This major work also includes findings from a Web survey of American classical scholars offering the first broadly representative impression of what they think about their discipline and its prospects for the future Adler also conducted numerous in depth interviews with participants in the controversies discussed allowing readers to gain the most reliable information possible about these controversies Those concerned about the liberal arts and the best way to educate young Americans should read this book Accessible and jargon free this narrative of scholarly scandals and their context makes for

both enjoyable and thought provoking reading **Race** Denise Eileen McCoskey,2021-03-25 How do different cultures think about race In the modern era racial distinctiveness has been assessed primarily in terms of a person s physical appearance But it was not always so As Denise McCoskey shows the ancient Greeks and Romans did not use skin colour as the basis for categorising ethnic disparity The colour of one s skin lies at the foundation of racial variability today because it was used during the heyday of European exploration and colonialism to construct a hierarchy of civilizations and then justify slavery and other forms of economic exploitation Assumptions about race thus have to take into account factors other than mere physiognomy This is particularly true in relation to the classical world In fifth century Athens racial theory during the Persian Wars produced the categories Greek and Barbarian and set them in brutal opposition to one another a process that could be as intense and destructive as black and white in our own age Ideas about race in antiquity were therefore completely distinct but as closely bound to political and historical contexts as those that came later This provocative book boldly explores the complex matrices of race and the differing interpretations of ancient and modern across epic tragedy and the novel Ranging from Theocritus to Toni Morrison and from Tacitus and Pliny to Bernal s seminal study *Black Athena* this is a powerful and original new assessment [Inventing Africa](#) Robin Derricourt,2011-03-04 Inventing Africa is a critical account of narratives which have selectively interpreted and misinterpreted the continent s deep past Writers have created alluring images of lost cities vast prehistoric migrations and golden ages of past civilisations Debates continue on the African origins of humankind the contributions of ancient Egypt to the world and Africa s importance to global history Images of Africa simplifying a complex and diverse continent have existed from ancient Mediterranean worlds slave trading nations and colonial powers to today s political elites ecotourists and aid givers Robin Derricourt draws on his background as publisher and practitioner in archaeology and history to explore the limits and the dangers of simplifications arguing as with Said s concept of Orientalism that ambitious ideas can delude or oppress as well as inform Defending Africa against some of the grand narratives that have been imposed upon its peoples Inventing Africa will spark new debates in the history of Africa and of archaeology **Black Dionysus** Kevin J. Wetmore (Jr.),2003-03-19 African American adaptations of Greek tragedy on the continuum of these two models are then discussed and plays by Peter Sellars Adrienne Kennedy Lee Breuer Rita Dove Jim Magnuson Ernest Ferlita Steve Carter Silas Jones Rhodessa Jones and Derek Walcott are analyzed BOOK JACKET [Encyclopedia of Blacks in European History and Culture: A-J](#) Eric Martone,2009 Blacks have played a significant part in European civilization since ancient times This encyclopedia illuminates blacks in European history literature and popular culture It emphasizes the considerable scope of black influence in and contributions to European culture The first blacks arrived in Europe as slaves and later as laborers and soldiers and black immigrants today along with others are transforming Europe into multicultural states This indispensable set expands our knowledge of blacks in Western civilization *The Johns Hopkins Guide to Literary Theory and Criticism* Michael Groden,Martin Kreiswirth,Imre Szeman,2005 Publisher Description

Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur ,2003 **Current Issues and the Study of Ancient History** Stanley Mayer Burstein,2002 The arrival of new disciplinary approaches to ancient fields of study is embraced in this volume of Publications of the Association of Ancient Historians This volume considers the world of the Classic civilizations viewed through the lenses of recent approaches to historical material Stanley M Burstein considers Egypt and Greece in the light of Afrocentrism as a means of exploring ethnicity in the study of antiquity Nancy Demand applies the outlook of gender studies to ancient history with the resultant concepts of participation and power Ian Morris delves into the role archaeology takes in the understanding of ancient Greece and Lawrence Tritle explores psychology and history in an analysis of Thucydides a foundational writer of Classical history These cross disciplinary studies demonstrate the flexibility and breadth of the historical undertaking in an environment of continual growth and change Choice ,2008

Heresy in the University Jacques Berlinerblau,1999 One of the most controversial books to come out of the academy in the last fifteen years is Martin Bernal s *Black Athena* It has been a true cause celebre Afrocentrists have both praised the book and claimed that Bernal stole from the work of black scholars to create his study of the Afroasiatic roots of classical civilization Classicists feel passionately about what they perceive as an attack from an outsider on the origins not only of ancient Greece but of their own discipline It seems that everyone has something to say about the book the question is how many really understand it In *Heresy in the University* Jacques Berlinerblau provides an exegesis of the contents of *Black Athena* making it accessible to a wider audience As he clarifies and restates Bernal s opus Berlinerblau identifies Bernal s flaws in reasoning and gaps in evidence He cuts to the heart of Bernal s prose singling out the key points of Bernal s argument explaining and arranging them in a cogent manner Berlinerblau addresses the critics really important objections including his own and links each of them to the appropriate substantive argument in *Black Athena* He goes beyond simple summary and exposition to present the underlying stated and unstated agendas of Bernal and his critics Ultimately he exposes both sides and asks what the flawed reasoning from all concerned reveals about the stakes in this key academic dispute and what that in turn says about the modern academy Jacques Berlinerblau is an assistant professor and director of Judaic studies at Hofstra University **Black Rhythms of Peru** Heidi Carolyn Feldman,2001 South Atlantic Review ,1995 *Macalester International* ,2004 *Book Review Index* ,2006 Every 3rd issue is a quarterly cumulation

American Book Publishing Record ,2002 **Mummy Wheat** R. Drew Griffith,2008-09-18 Homer presents a world view in which death represents the end of consciousness and total annihilation of personhood Yet in *Odyssey* Book Four he contradicts this by saying that one man at least will not die but will be transported to Elysium where he will have a blessed existence forever In *Mummy Wheat* R Drew Griffith argues that this shocking violation of Homer s normal world view comes from Egypt where more than anywhere else in the ancient world people firmly believed in life after death This Egyptian view entered Homer deeply enough that traces of it can be found in many facets of his poetic language Finally Griffith argues the

Elysium idea did not die with Homer but became enshrined in one of the most influential and long lived religious traditions of Greece the mysteries of Demeter at Eleusis outside of Athens Yelesalehe Hiwayona Dikanohogida Naiwodusv Qwo-Li Driskill,2008 This dissertation examines the importance of performed and embodied rhetorics to Cherokee survival and resistance and argues for performance as a primary site of Native cultural continuance and rhetorical production Two historiographic studies are central to making this argument The first Indian In The Archive Performance Historiography as Cherokee Ghost Dance Chapter Three looks to the Cherokee Ghost Dance and the Redbird Smith movement as models for radical decolonial performative historiography With a particular focus on recovering a history of nineteenth century Cherokee theatre this chapter focuses on how archives are and can be used by Cherokee people to re establish dormant and or obscured Cherokee performance traditions and histories The second study On The Wings Of Wadaduga Towards the Performance of Two Spirit Critiques Chapter Four focuses on revising both archived and embodied records through the development of an historiographic performance with Two Spirit Gay Lesbian Bisexual Transgender and Queer identified Cherokees This chapter examines performance as historiography and argues for performance as a means to revise both archival and embodied cultural memories Both studies are grounded in the methodological concepts of special characters omitted duyuk ta balance and special characters omitted gadugi cooperative labor as a way of conceiving decolonial scholarship practice and pedagogy within the field of rhetoric and composition Abstract **Program of the ...
