Children's Cultures after Childhood Justyna Deszcz-Tryhubczak, Macarena García-González, 2023-08-15 *Children's Cultures after Childhood* introduces theoretical concepts from new materialist and posthumanist childhood studies into research on children's literature, film, and media texts with attention to the entanglements of which they are part. Thirteen chapters by international contributors from diverse disciplinary fields: literary studies, cultural studies, media studies, education, and childhood studies offer a cross section of empirical and theoretical approaches sharing an inspiration in the notion of after childhoods proposed by Peter Kraftl, a children's geographer, to conceptualize theoretical and methodological orientations in research on children's lives and on past, present, and future childhoods. This interdisciplinary collection will be of interest to scholars working in children's literature and culture studies, education, and childhood studies. [Kids Rule!](#)

Sarah Banet-Weiser, 2007-09-03 Sarah Banet Weiser explores how the cable network Nickelodeon combines an appeal to kids' formidable purchasing power with assertions of their political and cultural power.

Children, Film and Literacy Becky Parry, 2013-10-22 *Children, Film and Literacy* explores the role of film in children's lives. The films children engage in provide them with imaginative spaces in which they create, play, and perform familiar and unfamiliar, fantasy and everyday narratives, and this narrative play is closely connected to identity, literacy, and textual practices. Family is key to the encouragement of this social play, and at school, the playground is also an important site for this activity. However, in the literacy classroom, some children encounter a discontinuity between their experiences of narrative at home and those that are valued in school. Through film, children develop understandings of the common characteristics of narrative and the particular language of film. This book demonstrates the ways in which children are able to express and develop distinct and complex understandings of narrative that is to say where they can draw on their own experiences, including those in a moving image form. Children whose primary experiences of narrative are moving images face particular challenges when their experiences are not given opportunities for expression in the classroom, and this has urgent implications for the teaching of literacy.

Children, Childhood and Cultural Heritage Kate Darian-Smith, Carla Pascoe, 2013 Explores how the everyday experiences of children and their imaginative and creative worlds are collected, interpreted, and displayed in museums and on monuments and represented through objects and cultural lore.

Nickelodeon Nation Heather Hendershot, 2004-02 The first examination of the most popular TV network for kids. Essays are both scholarly as well as journalistic. Nick employees and psychologists.
