

The background of the slide features a traditional Chinese building with ornate, multi-tiered roofs, illuminated by warm sunset light. The building is partially obscured by a semi-transparent light blue rectangular overlay that contains the text. The sky is a mix of soft pinks, oranges, and blues, with some clouds visible. In the foreground, there's a glimpse of a stone-paved path and a body of water reflecting the sky.

China Lessons From Practice:

China Maorong Wang, Lin Weihua, Sun Shilu, 1988 **Theory and Practice of Lesson Study in Mathematics** Rongjin Huang, Akihiko Takahashi, João Pedro da Ponte, 2019-05-28 This book brings together and builds on the current research efforts on adaptation conceptualization and theorization of Lesson Study LS It synthesizes and illustrates major perspectives for theorizing LS and enriches the conceptualization of LS by interpreting the activity as it is used in Japan and China from historical and cultural perspectives Presenting the practices and theories of LS with practicing teachers and prospective teachers in more than 10 countries it enables the reader to take a comparative perspective Finally the book presents and discusses studies on key aspects of LS such as lesson planning post lesson discussion guiding theories connection between research and practice and upscaling Lesson Study which has originated in Asia as a powerful effective professional development model has spread globally Although the positive effects of lesson study on teacher learning student learning and curriculum reforms have been widely documented conceptualization of and research on LS have just begun to emerge This book including 38 chapters contributed by 90 scholars from 21 countries presents a truly international collaboration on research on and adaptation of LS and significantly advances the development of knowledge about this process Chapter 15 How Variance and Invariance Can Inform Teachers Enactment of Mathematics Lessons of this book is available open access under a CC BY 4 0 license at link.springer.com Theory and Practice of Lesson Study in Mathematics An International Perspective shows that the power of Lesson Study to transform the role of teachers in classroom research cannot be explained by a simple replication model Here we see Lesson Study being successful internationally when its key principles and practices are taken seriously and are adapted to meet local issues and challenges Max Stephens Senior research fellow at The University of Melbourne It works Instruction improves learning improves Wide scale Enduring Deep impact Lesson study has it When something works as well as lesson study does while alternative systems for improving instruction fail or only succeed on small scale or evaporate as quickly as they show promise it is time to understand how and why lesson study works This volume brings the research on lesson study together from around the world Here is what we already know and here is the way forward for research and practice informed by research It is time to wake up and pay attention to what has worked so well on wide scale for so long Phil Dara A leading author of the Common Core State Standards of Mathematics in the U S *International Developments and Practices in Investigative Interviewing and Interrogation* David Walsh, Gavin Oxburgh, Allison Redlich, Trond Myklebust, 2017-09-19 Techniques in the investigative interviewing and interrogation of victims witnesses and suspects of crime vary around the world according to a country's individual legal system religion and culture Whereas some countries have developed certain interview protocols for witnesses such as the ABE Guidelines and the NICHD protocol when interviewing children and the PEACE model of interviewing suspects other countries continue to use physical coercion and other questionable tactics to elicit information Until now there has been very little empirical

information about the overall interview and interrogation practices in non western countries especially the Middle and Far East This book addresses this gap bringing together international experts from over 25 countries and providing in depth coverage of the various interview and interrogation techniques used across the globe Volume 2 focuses on the interviewing of crime suspects aiming to provide the necessary information for an understanding of how law enforcement agencies around the world gain valuable information from suspects in criminal cases Together the chapters that make up this volume and the accompanying volume on interviewing witnesses and victims draw on specific national case studies and practices examine contemporary challenges and identify best practice to enable readers to develop an international as well as a comparative perspective of developments worldwide in this important area of criminal investigation This book will be an essential resource for academics and students engaged in the study of policing criminal investigation forensic psychology and criminal law It will also be of great interest to practitioners legal professionals and policymakers around the world

The Logic of China's New School Reforms Qiquan Zhong,2021-10-25 This is a collection of essays on China s new curriculum reforms in basic education covering various aspects of the reforms ranging from education theory to classroom activity transformation from teacher training to teaching quality evaluation Prof Zhong presents rich experiences in the reforms in the last decade as collisions between old ideas and new ones marking the end of the Kairov Era pedagogy This book discusses profound changes in China s basic education propelled by both top down designs and bottom up innovations from grass root teachers

China's Higher Education Reform and Internationalisation Janette Ryan,2011-03-07 Despite radical and fundamental reform of the Chinese higher education system very little is known about this outside China The past decade has seen radical reform of all levels of China s education system as it attempts to meet changing economic and social needs and aspirations this has included transformation of university curricula pedagogy and evaluation measures rapidly increasing joint research and degree programmes between Chinese universities and universities abroad and very large numbers of Chinese students studying at universities outside China This book describes the historical cultural intellectual and contemporary background and contexts of the reform and internationalisation of higher education in China It discusses these changes outlines the challenges posed

by the changes for university administrators faculty researchers students and those working with Chinese academics and students in China and abroad and assesses the impact and evaluates the success of the changes Most importantly it considers how this mobility of people and ideas across educational systems and cultures can contribute to new ways of working and understanding between Western and Chinese academic cultures The book is a companion to Education Reform in China which focuses on reform at the early childhood primary and secondary levels *Research Anthology on Facilitating New Educational Practices Through Communities of Learning* Management Association, Information Resources,2020-10-30 With the future of education being disrupted and the onset of day to day uncertainties and challenges that have to be solved quickly teachers are now turning to professional development communities support communities where they can share and learn about effective practices to use in the classroom While transitioning to blended or online learning and keeping up with the technological advances in education these communities provide an essential backbone for teachers to rely on for support and updated knowledge on what educational practices are being utilized how they are working and what solutions have been found for the ever changing climate of education Research on the benefits and use of these communities as well as on the latest educational practices is essential in teacher development and student learning in the current culture of a rapidly changing educational environment The *Research Anthology on Facilitating New Educational Practices Through Communities of Learning* contains hand selected previously published research that provides information on the communities of learning that teachers are currently involved in to seek the latest educational practices The chapters cover the context of these communities the benefits and an overview of how this support is a necessary tool in today s practices of teaching and learning While highlighting topics such as learning communities teacher development mentoring and virtual communities this book is essential for inservice and preservice teachers administrators teacher educators practitioners stakeholders researchers academicians and students who are interested in how communities of practice tie into professional development teacher learning and the online shift in teaching

China's Modernization II Gerhard Preyer,2015-09-09 The idea of only one way leading to a modern society seems to be hardly tenable But even if we agree to this our theories and terms describing modernization are gained on our own Western history So social science has to reconsider its basic terms to describe China s modernization and maybe even the understanding of modernization itself The second of two volumes on China s modernization collects articles by leading Chinese and Western scientists focusing on the main conflicts and differences this process involves In the first section On Contemporary Theory of Modernization Manussos Marangudakis represents Shmuel N Eisenstadt s concept of Multiple Modernities and the Theory of Indeterminacy one of the best elaborated perspectives on modernity Changing China Dealing with Diversity the second section examines how China copes with dissent and discusses the significance of law and a civil society Merle Goldman begins with Dissent of China s Public Intellectuals in the Post Mao Era The Modernization of Law in China its Meaning Achievements Obstacles and Prospect is the
