China And Us Foreign Policy:

US-China Foreign Relations Robert S. Ross, Øystein Tunsjø, Dong Wang, 2020-10-15 This book examines the power transition between the US and China and the implications for Europe and Asia in a new era of uncertainty The volume addresses the impact that the rise of China has on the United States Europe transatlantic relations and East Asia China is seeking to use its enhanced power position to promote new ambitions the United States is adjusting to a new superpower rivalry and the power shift from the West to the East is resulting in a more peripheral role for Europe in world affairs Featuring essays by prominent Chinese and international experts the book examines the US China rivalry the changing international system grand strategies and geopolitics foreign policy geo economics and institutions and military and technological developments The chapters examine how strategic security and military considerations in this triangular relationship are gradually undermining trade and economics reversing the era of globalization and contributing to the breakdown of the US led liberal order and institutions that will be difficult to rebuild The volume also examines whether the adversarial antagonism in US China relations the tension in transatlantic ties and the increasing rivalry in Europe China relations are primarily resulting from leaders ambitions or structural power shifts This book will be of much interest to students of Asian security US foreign policy European politics and International Relations in general

US Foreign Policy and China Adam Bartley, Aiden Warren, 2020-11-05 Examining the 21st century presidencies of the United States and their comparative policies strategies attitudes and behaviours towards the People s Republic of China Comprehensively examines the three 21st Century U S presidential administrations and their foreign policies toward China Provides a detailed analysis of Trump s first term in office Focuses on the key security challenges relating to among others Chinese military modernization South and East China Seas the Indo Pacific region the Belt and Road Initiative nuclear modernization This book draws critical attention to the core security challenges that have defined U S foreign policy in relation to China and its rise on the international stage During the administrations of Presidents George W Bush and Barack Obama the traditional safeguards and stabilizers to strategic competition were broadly adhered to albeit in some cases not without great difficulty Under the leadership of Donald Trump and China s Xi Jinping however these bulwarks have alarmingly diminished Abrupt departures in engagement platforms and asserting regional defensive postures have become the new norms With brevity and nuance this book provides much needed connective tissue in examining these departures and their antecedents across the Bush Obama and Trump administrations It reveals Washington and Beijing are moving towards a new period where unlike previous ones this one will be characterised by an amplified preponderance of competition and the enhanced probability of conflict and confrontation

Chinese Foreign Relations Robert G. Sutter, 2012-01-26 This comprehensive introduction to Chinese foreign relations examines the opportunities and limits China faces as it seeks

growing international influence Tracing the record of twists and turns in Chinese foreign relations since the end of the Cold War Robert G Sutter provides a nuanced analysis that shows that despite its growing power Beijing is hampered by both domestic and international constraints Newly revised this edition features more extensive treatment of China's role in the international economy and greater discussion of its relations with the developing world Overall Sutter's balanced and thorough assessment shows China's leaders exerting more influence in world affairs but remaining far from dominant Facing numerous contradictions and trade offs they move cautiously as they deal with a complex global environment

Greater China and U.S. Foreign Policy Thomas A. Metzger, Ramon Hawley Myers, 1996 The proceedings of the 1994 annual conference of the Socio Legal Studies Association held in Nottingham England The 11 papers include both theoretical and empirical studies of the contract as a central concept in both academic debate and mainstream government policy in Britain in the 1990s The theoretical offerings emphasize the decline of the classical law and increased importance of co operation and relationality The empirical studies examine contracts in the National Health Service and local governments noting the movement from hierarchical to market and quasi market structures Distributed by Ashgate Annotation copyright by Book News Inc Portland OR

The U.S. Constitution and Foreign Policy Victoria Kraft, 1991-02-14 President Carter's unilateral decision to recognize the People's Republic of China as the sole legal government of China to end diplomatic relations with the Republic of China on Taiwan and to terminate the 1954 United States Republic of China Mutual Defense Treaty triggered a classic constitutional separation of powers controversy between the executive legislative and judicial branches of government Victoria Marie Kraft examines the important legal issues and the broader questions of constitutional law and process raised within the context of this controversy Does the president have the constitutional power to terminate a duly enacted treaty without congressional assent When is it constitutionally permissible for a president to act unilaterally in foreign affairs When is congressional consultation required and does the burden of consultation lie with Congress or with the executive branch The role of the courts in resolving disputes between Congress and the president over the proper constitutional allocation of foreign policy making power is thoroughly scrutinized as are the long and short term effects on foreign policy of confrontational modes of interaction between the president and Congress Chapter One traces the history of executive legislative collaboration on China policy between 1949 and 1976 and underlines the role of Congress in formulating U S China policy which later created the legitimate expectation in Congress that active congressional participation in that area would continue In Chapter Two the rationale behind Carter's decision and his reasons for making that decision without consulting Congress are considered in depth The traditional role of the federal courts in resolving foreign policy making conflicts between Congress and the president is analyzed using *Goldwater v Carter* as a starting point in Chapter Three The last two chapters document the legislative history and constitutional controversy surrounding the Taiwan Relations Act and use the lessons of the China

normalization controversy to develop a useful standard for assessing the constitutional propriety of unilateral foreign policy making by the president Invaluable supplemental reading for courses in Constitutional Law Foreign Policy the Presidency and American Government this volume provides a comprehensive understanding of the vital relationships among Congress the president the judiciary and the constitution

President (1969-1974 : Nixon),1971 China's Foreign Policy Making Lin Su,2017-03-02 Various domestic factors impact upon China s foreign policy making such as bureaucracy academics media and public opinion This stimulating book examines their increasing influence and focuses in particular on China s policy towards the United States exploring whether there has been an emergence of societal factors independent of the Communist Party that have begun to exert influence over the policy process It also debates questions such as how it will affect the ability of the Chinese government to frame and implement its policy towards the US and whether it has generated institutional arrangements in China for cooperation on issues such as trade human rights and Taiwan The book provides a better understanding of the role of societal forces in China s foreign policy making process

U.S. Policy Toward China Robert G. Sutter,1998-09-03 Increased fluidity and pluralism in U S policy toward China in the post Cold War period have led to growing non governmental influence as both the administration and Congress have become the target of intense lobbying by organized groups concerned with human rights trade opportunities relations with Taiwan and other hotly debated issues This balanced study examines the central role of these organizations and shows how the recent movement toward a more consistent and coherent administration policy on China remains tentative and under attack especially in the wake of Asian campaign contributions Although recognizing that U S policymakers must consider a wider range of interests in the current political climate Sutter argues that following the prevailing consensus among organized interests may lead to bad policy Instead he contends that U S foreign policy must strike a balance between satisfying domestic concerns while buttressing interests abroad
