

China The Big Tiger

Ronald Tilson, Philip J. Nyhus

China The Big Tiger:

China, the Big Tiger Dick Wilson, 1997 China is the world's biggest nation and yet its impact has been comparatively small in modern world affairs. Now its poverty is giving way to modernity under the impetus of 10 per cent annual growth and the country is opening up to foreign trade and investment. This book examines the main aspects of contemporary China which affect the outside world from politics to the army from farming and industry to birth control programmes and from national unity to diplomacy towards neighbouring states and other powers. Dick Wilson places events in China in the context of what is happening to the Chinese community outside the People's Republic in Hong Kong, Taiwan, Singapore and South East Asia. He also analyzes the trends which will determine China's future. The book conveys the real story of the Chinese people as they approach the 21st century already named by some as China's century.

China Dick Wilson, 1996 This text aims to tell the real story of the Chinese people. It examines aspects of contemporary China which affect the outside world such as politics, farming, industry, birth control programmes, national unity and diplomacy towards neighbouring states and other powers.

Tigers of the World Ronald Tilson, Philip J. Nyhus, 2009-11-30 *Tigers of the World* Second Edition explores tiger biology, ecology, conservation, management and the science and technology that make this possible. In 1988 when the first edition was published, tiger conservation was still in its infancy and two decades later there has been a revolution not only in what is known but how information about tigers is obtained and disseminated. In the fast-changing world of conservation there is a great need to summarize the vast and current state of the art to put this into historical perspective and to speculate in what yet remains to be done. *Tigers of the World* Second Edition fulfills this need by bringing together in a unique way the world's leading tiger experts into one volume. Despite the challenges ahead there are bright spots in this story and lessons aplenty not only for tiger specialists but large carnivore specialists, conservation biologists, wildlife managers, natural resource policymakers and most importantly the caring public. Examines the past twenty years of research from the world's leading tiger experts on biology, politics and conservation. Describes latest methods used to disseminate and obtain information needed for conservation and care of this species. Includes coverage on genetics and ecology, policy, poaching and trade, captive breeding and farming and the status of Asia's last wild tigers. Excellent resource for grad courses in conservation biology, wildlife management and veterinary programs. New volume continues the classic Noyes Series in Animal Behavior, Ecology, Conservation and Management.

Wild Life in China, Or, Chats on Chinese Birds and Beasts George Lanning, 1911

Shooting in China Thomas R. Jernigan, 1908

The Last Tigers of Hong Kong John Saeki, 2021-12-07 Tigers came to Hong Kong. They preyed on pigs, chickens, cattle and deer. They sometimes killed people. They came most years through to the end of the 1950s. As long as there were South China tigers in the wild, Hong Kong saw some of them. They stopped coming when they were on their way to extinction in China. Not many people know this but it's

true And this is the first history of the Hong Kong tiger *Chinese Politics in the Era of Xi Jinping* Willy Wo-Lap Lam, 2015-03-12 Renowned for his coverage of China's elite politics and leadership transitions veteran Sinologist Willy Lam has produced the first book length study in English of the rise of Xi Jinping General Secretary of the Chinese Communist Party CCP since November 2012 With rare insight Lam describes Xi's personal history and his fascination with quasi-Maoist values the factional politics through which he ascended the configuration of power of the Fifth Generation leadership and the country's likely future directions under the charismatic princeling Despite an undistinguished career as a provincial administrator Xi has rapidly amassed more power than his predecessors He has overawed his rivals and shaken up the party state hierarchy by launching large scale anti corruption and rectification campaigns With a strong power base in the People's Liberation Army and a vision of China as an awakening lion Xi has been flexing China's military muscle in sovereignty rows with countries including Japan Vietnam and the Philippines while trying to undermine the influence of the United States in the Asia Pacific region While Xi is still fine tuning his art of governance his zero tolerance for dissent and his preoccupation with upholding the privileges of the red aristocracy and the CCP's status as perennial ruling party do not bode well for economic political or cultural reforms Lam takes a close look at Xi's ideological and political profile and considers how his conservative outlook might shape what the new strongman calls the Great Renaissance of the Chinese race

Ghost and Vampire Tales of China Gerald Willoughby-Meade, 1925 **China Reconstructs**, 1985 **The London and China Telegraph**, 1887 *Ling-Nam Or Interior Views of Southern China Including Explorations in the Hitherto Untraversed Island of Hainan* Henry, 1886 *Commercial Reports from Her Majesty's Consuls in China* Great Britain. Foreign Office, 1918 *Heritage Sites in Contemporary China* Luca Zan, Bing Yu, Jianli Yu, Haiming Yan, 2018-03-09 *Heritage Sites in Contemporary China Cultural Policies and Management Practices* focuses on cultural heritage policies in China emerging in the period of the 11th and 12th Five Year Plans Various important Chinese sites across China are investigated including Luoyang Sui Daming Gong Niuheliang Xinjiang and Nanyuewang through the dual perspective of archaeological debate and as a case study of policy making It explores the relationship between policy and the institutional and administrative conditions such as budgeting and land concerns which affect it Building on the research project implemented by the China Academy for Cultural Heritage CACH from 2012-2014 which focused on the impact of the Dayizhi Policy for Great Archaeological Sites the book provides an interdisciplinary insider's approach to viewing archaeological discoveries policies and emerging practices in site and archaeological management and public administration in China Featuring contributions from experts within CACH and from the Chinese community of archaeologists and including numerous tables data and maps it will appeal to researchers and scholars in disciplines such as archaeology heritage management public administration and policy making *China* Oliver Edmund Clubb, 1972 Evocative text and dramatic photos bring the Chinese experience to life giving readers a taste of what they can expect to see and experience to the Middle Kingdom [The Flowery Kingdom and](#)
