Chinese Religious Life David A. Palmer, Glenn Shive, Philip L. Wickeri, 2011-09-13 Offering an introduction to religion in contemporary China the essays in this volume consider many diverse themes including religion in urban rural and ethnic minority settings and the historical sociological economic and political aspects of religion on the country as a whole **The White Lotus Teachings in Chinese Religious History** Barend ter Haar, 2021-09-13 This book provides a new hypothesis for understanding the real nature of the term White Lotus Teachings The author argues that there are actually two different phenomena covered by similar terms from c 1130 until 1400 a real lay Buddhist movement existed which can be called the

White Lotus movement It enjoyed the respect of contemporary literati and religious elites The movement used the autonym White Lotus Society which came to be prohibited in the early Ming and was discarded as a result After 1525 the name reappeared in the form White Lotus Teachings but now only as a derogatory label used by officials and literati rather than by believers themselves As a result of this hypothesis the history of the White Lotus Teachings changes from one of religious groups and magicians into one of elite ideology and religious persecution The book is therefore important both for historians and anthropologists of Chinese religion and society and for comparative historians interested in the ideological and social construction of heterodoxy *China's Religious Heritage and Christianity* Arthur Maxwell Field,1944 [General History of Religions in China Part I](#) Mou Zongjian,Zhang Jian,2017-01-31 Religion and belief have played vital roles in the history of Chinese culture This major two volume work Volume I ISBN 978 1 84464 269 4 Volume II ISBN 978 1 84464 270 0 examines China s fascinating history of religion and the winding path that each religion has taken throughout Chinese history The book chronologically sets out the major events and historical developments of each religion and faith that has played a part in creating modern day China These include early primitive religions patriarchal religions Chinese folk religions Taoism Buddhism Islam and Christianity It offers deep and methodical research with contributions from some of China s most distinguished professors Both volumes will be essential references for academic institutions involved with Asian studies and religious studies as well as those who seek to better understand the roots of contemporary Chinese culture Librarians ebook available Series Religions in China Subject Asian Studies Chinese Studies Religious Studies Cultural History **General History of Religions in China** Zhang Jian,2017-01-31 Religion and belief have played vital roles in the history of Chinese culture Written by one of China s foremost experts on the subject this major new two volume work enables people around the world cross to truly learn and understand China s fascinating history of religion and the winding path each has taken throughout Chinese history Made available for the very first time outside of China this comprehensive book sets out chronologically the major events and historical developments of each religion and faith that has played a part in creating modern day China These include Early Primitive Religions Patriarchal Religions Taoism Chinese Folk Religions Buddhism Islam Christianity General History of Religions in China offers deep and methodical research covering the entire history of Chinese religion and belief with contributions from some of China s most distinguished professors Published as a two volume set in association with the prestigious China Social Sciences Press CSSP Essential reference material for academic institutions involved with Chinese studies religious studies history studies plus academics who seek to better understand the roots of contemporary Chinese culture [China](#) John Lagerwey,2010-12-01 Over the last 40 years our vision of Chinese culture and history has been transformed by the discovery of the role of religion in Chinese state making and in local society The Daoist religion in particular long despised as superstitious has recovered its place as the native higher religion But while the Chinese state tried from the fifth century on to construct an orthodoxy based on Confucianism Daoism and Buddhism

local society everywhere carved out for itself its own geomantically defined space and organized itself around local festivals in honor of gods of its own choosing gods who were often invented and then represented by illiterate mediums Looking at China from the point of view of elite or popular culture therefore produces very different results John Lagerwey has done extensive fieldwork on local society and its festivals This book represents a first attempt to use this new research to integrate top down and bottom up views of Chinese society culture and history It should be of interest to a wide range of China specialists students of religion and popular culture as well as participants in the ongoing interdisciplinary dialogue between historians and anthropologists John Lagerwey is professor of Daoist history at the cole Pratique des Hautes tudes and of Chinese studies at the Chinese University of Hong Kong He is author of Taoist Ritual in Chinese Society and History and editor of the 30 volume Traditional Hakka Society Series as well as the recently published four volume set Early Chinese Religion Chinese Religions Christian Jochim,1986 Covers Confucianism Taoism and Chinese Buddhism focusing on the interaction between religion and aspects of Chinese culture such as the family the community the arts etc **Liberal Arts and the Legacy of China's Christian Universities** Peter Tze Ming Ng,Leping Mou,Ruth Hayhoe,2023-05-04 This book brings together English translations of thirteen research papers published in recent years by Chinese historians sociologists and educators These papers investigate various dimensions of the legacy of China s historic The Christian Universities which continues to inspire higher education reform in China even in the twenty first century This book focuses on Christian Universities which fostered a particularly notable Liberal Arts Education in the Chinese context Besides embracing some ideals in common with Liberal Arts Education developed in the West their Liberal Arts Education curriculum had an emphasis on readings in the classics history philosophy religion ethics and literature which conveyed traditional Chinese values The Christian Universities also shared a strong commitment to moral formation community service and global citizenship education This book emphasizes Liberal Arts Education that focused on the whole person where academic knowledge skills and character were equally valued The book presents distinctive characteristics of the study of Christian higher education in China and the interplay between globalization and localization **The Religious History in the Spring and Autumn Period and the Warring States Period** Li Shi, The book is the volume of The Religious History in the Spring and Autumn Period and the Warring States Period among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world s oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the

Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive government fell soon after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China's last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949 Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China
