revolution Appendix PSL Resolution on China      **Revolution and Counterrevolution in China** Lin Chun,2021-09-28 Over recent decades China has experienced massive change and development China is the world s fastest growing economy and has become a global superpower once again But this development has thrown up a number of seemingly intractable contradictions both political and economic In this panoramic study of Chinese history in the twentieth century and its place in the development of global capitalism Lin Chun argues that the paradoxes of contemporary Chinese society are not simply the product of the development of capitalism or modernity in the country They are instead the product of the contradictions of its long revolutionary history as well as the social and political consequences of its post socialist transition Published to coincide with the 100th anniversary of the founding of the Chinese Communist Party *Revolution and Counterrevolution in China* charts China s epic revolutionary trajectory in search of a socialist alternative to the global system and asks whether market reform must repudiate and overturn the revolution and its legacy      *Marxism in the Chinese Revolution* Arif Dirlik,2005 Representing a lifetime of research and writing by noted historian Arif Dirlik the essays collected here explore developments in Chinese socialism and the issues that have occupied historians of the Chinese revolution for the past three decades Dirlik engages Chinese socialism critically but with sympathy for the aspirations of revolutionaries who found the hope of social political and cultural liberation in Communist alternatives to capitalism and the intellectual inspiration to realize their hopes in Marxist theory The book s historical approach to Marxist theory emphasizes its global relevance while avoiding dogmatic and Eurocentric limitations These incisive essays range from the origins of socialism in the early twentieth century through the victory of the Communists in mid century to the virtual abandonment by century s end of any pretense to a socialist revolutionary project by the leadership of the Chinese Communist Party All that remains of the revolution in historical hindsight are memories of its failures and misdeeds but Dirlik retains a critical perspective not just toward the past but also toward the ideological hegemonies of the present Taken together his writings reaffirm the centrality of the revolution to modern Chinese history They also illuminate the fundamental importance of Marxism to grasping the flaws of capitalist modernity despite the fact that in the end the socialist response was unable to transcend the social and ideological horizons of capitalism      *China 70's*,1977 Previously untranslated writings of the Chinese revolutionaries by a group termed ultra left by the Peking establishment They present their views on socialist democracy the Great Proletarian Cultural Revolution Maoist ideology and China s future      *Revolution and Its Narratives* Xiang Cai,2016-02-26 Published in China in 2010 *Revolution and Its Narratives* is a historical literary and critical account of the cultural production of the narratives of China s socialist revolution Through theoretical empirical and textual analysis of major and minor novels dramas short stories and cinema Cai Xiang offers a complex study that exceeds the narrow confines of existing views of socialist aesthetics By engaging with the relationship among culture history and politics in the context of the revolutionary transformation of Chinese society and arts Cai illuminates the utopian promise as well as the ultimate impossibility of socialist cultural
