## **Chinas Inner Mongolia:**

**China's Inner Mongolia** ,1987      **Mongolia-China Relations** Sharad Kumar Soni,2006 Traces the historical roots of Mongolia China relations and analyses the pattern of the diverse relations between the two countries in modern and contemporary times The examines the circumstances leading to the incorporation of Inner Mongolia into China and looks at the shift in Moscow s China policy following Gorbachev s Vladivostok initiative      Cowboys And Cultivators Burton Pasternak,2019-03-11 This book is about Han Chinese who dared to cross over the Great Wall of China to make a life for themselves on the northern frontier It compares family lives the economy and gender relations among Chinese herders and farmers of Inner Mongolia      Collaborative Nationalism Uradyn E. Bulag,2010-07-16 Cosmopolitanism and friendship have become key themes for understanding ethnicity and nationalism In this deeply original study of the Mongols leading scholar Uradyn E Bulag draws on these themes to develop a new concept he terms collaborative nationalism He uses this concept to explore the paradoxical dilemma of minorities in China as they fight not against being excluded but against being embraced too tightly in the bonds of friendship Going beyond traditional binary relationships he offers a unique triangular perspective that illuminates the complexity of regional interaction Thus Collaborative Nationalism traces the regional and global significance of the Mongols in the fierce competition among China Japan Mongolia and Russia to appropriate the Mongol heritage to buttress their own national identities The book considers a rich array of case studies that range from Chinggis Khan to reincarnate lamas from cadres to minority revolutionary history and from building the Mongolian working class to interethnic adoption So called friendship and collaboration permeate all of these arenas but Bulag digs below the surface to focus on the animosity and conflicts they both generate and mask Weighing the options the Mongols face he argues that the ethnopolitical is not so much about identity as it is about the capacity of an ethnic group to decide and organize its own vision of itself both within its community and in relation to other groups Nationalism he contends is collaborative at the same time that it is predicated on the pursuit of sovereignty      Changing Inner Mongolia David Sneath,2000 Since the Chinese Communists took control of Inner Mongolia very little has been written about the region This book is an attempt to redress the balance It is a study of the effect of decades of social engineering on a Minority Nationality in China David Sneath charts the recent history of the pastoral Mongolians of Inner Mongolia since they became the subjects of the Chinese Communist state and examines the society that has emerged since the abolition of the Communes in the 1980s He explores the history of local economic and political forms to illuminate the transformations and continuities of life in pastoral Mongolian society and offers an account that includes both the swings of national and regional government policy and the experiences of individuals subject to those changes By taking a historical perspective his study reveals underlying modes of symbolism and notions of domestic organization and paternalistic authority that have remained fundamental to pastoralism in Inner Mongolia It suggests an indigenous mechanism for economic inequality and dependency in pastoral society one that has helped to shape

the pastoral nomadic sociopolitical order of the past

**Reins of Liberation** Xiaoyuan Liu, 2006 The author's purpose in writing this book is to use the Mongolian question to illuminate much larger issues of twentieth century Asian history how war revolution and great power rivalries induced or restrained the formation of nationhood and territoriality He thus continues the argument he made in *Frontier Passages* that on its way to building a communist state the CCP was confronted by a series of fundamental issues pertinent to China's transition to nation statehood The book's focus is on the Mongolian question which ran through Chinese politics in the first half of the twentieth century Between the Revolution of 1911 and the Communists triumph in 1949 the course of the Mongolian question best illustrates the genesis clashes and convergence of Chinese and Mongolian national identities and geopolitical visions

*The Mongols at China's Edge* Uradyn Erden Bulag, 2002 This important study explores the multifaceted Mongol experience in China past and present Combining insights from anthropology history and postcolonial criticism Uradyn Bulag avoids romanticizing Mongols either as pacified primitive Other or as gallant resistance fighters Rather he portrays them as a people whose communist background and standing in China's northern borderlands has informed their political efforts to harness or confront Chinese nationalistic and political hegemony Breaking new ground in the study of Chinese and Mongol history and ethnicity the author offers a fresh interpretation of China viewed from the perspective of its peripheries and of minority nationalities in relation to the study of Chinese representation and minority self representation The author interrogates received wisdom about Chinese and minority nationalism by unraveling the Chinese discourse and practice of national unity He shows how the discourse was constructed over time through political rituals and sexuality in relation to Mongols and other non Chinese peoples that hark back to Chinese Xiongnu confrontations two millennia ago and Manchu conquest in the 17th and 18th centuries Titular rulers of an autonomous region in which they constitute a minority Mongols face enormous barriers in building and maintaining a socialist Mongolian nationality and a Mongolian language and culture Acknowledging these difficulties Bulag discusses a range of sensitive issues including the imbrication of nation class and ethnicity in the context of Mongol Chinese relations tensions inherent in writing a postrevolutionary history for a socialist nationality and the moral dilemma of building a socialist model with Mongol characteristics Charting the interface between a state centered multinational Chinese polity and a primordial nationalist multiculturalism that aims to manage minority nationalities as cultures he explores Mongol ethnopolitical strategies to preserve their heritage

[The Purge of the Inner Mongolian People's Party in the Chinese Cultural Revolution, 1967-69](#) Kerry Brown, 2021-11-29 During the Chinese Cultural Revolution from 1967 to 1969 some 16 000 Mongolians died and over a quarter of a million suffered injury during the purge of what was claimed to be a separatist party in the Inner Mongolian region This study looks at the purge through an analysis of the voices found in contemporary documents those of Red Guard groups local leaders felled during the campaign and the new leaders put in place by the central government in Beijing At the heart of this was the struggle for domination by a central government asserting national

unity opposed to any expression of local particularities in Inner Mongolia The author examines the discourse strategies by which central government attempted to impose total control asserting a dominant ideology and narrative based on Marxism Leninism The volume offers a unique insight into the relationship between language and culture of political power in modern China at a time of crisis and violence
