Public Administration in the 21st Century Rumki Basu, 2024-12-30 Public Administration has experienced a fundamental rethinking of its basic objectives concepts and theories during the 21st century This book examines transformations happening in global societies the economy and in politics to trace the trajectory of public administration as an academic discipline as well as being a focus of social science research It presents a reassessment of governance in heterogeneous developing countries that goes beyond the traditional Weberian bureaucratic model toward new models of organization and management informed by their legal constitutional economic and political needs aspirations and ground realities This is especially important in relation to the marginalized sections of society that primarily rely on citizen entitlements through public service delivery systems The author looks at widening the range and scope of public administrative agencies with the gradual cooperation of multiple actors such as civil society people at large and even the private sector in a partnering role The author revisits the discipline to tackle intellectual dilemmas that current governance theories and practices are confronting or will have to confront in future administrative situations in the context of developing countries of the South In the second edition the volume brings into focus lessons on policy and governance learnt from the Global South in building administrative capacities in post Covid 19 times An essential read on the mandates and challenges for the state regarding the rising South this book will be indispensable to scholars and researchers of politics especially governance and public policy sociology and development studies It will also be of interest to bureaucrats NGOs and government officials

Bringing Government into the 21st Century Tina George

Karippacheril, Soonhee Kim, Robert P. Beschel Jr., Changyong Choi, 2016-06-28 This volume a collaborative work between the World Bank's Global Governance Practice and a team of researchers working with the Korean Development Institute is dedicated to the proposition that there is much that can be learned from a careful and nuanced assessment of Korea's experience with e governance It seeks to draw lessons both from the large reservoir of experience as to what has worked as well as the more limited and isolated examples of what has not In particular it seeks to achieve two objectives The first is to accurately understand capture and distill the key dimensions of Korea's e governance experience so that it can be properly understood and appreciated Towards this end some of the world's leading experts on Korea's e governance experience have been engaged in its preparation and their conclusions have been carefully vetted and reviewed by other leading scholars of the role of IT systems within government The goal is to avoid flip generalizations or characterizations such as political will is important or it is important to embed e governance within a broader strategy to develop a domestic IT industry but to truly understand the complex interplay between differing political economic and bureaucratic interests and how they shaped decisions about developing the technological and human infrastructure that would support Korea's successful thrust to be the world's leading nation in this area The second is to ponder the lessons learned and what did and did not work from Korea's experience for other developing countries seeking to strengthen the role of information technology within their public sectors
