A Companion to the New Harp of Columbia Marion J. Hatchett, 2003 The shape note tradition first flourished in the small towns and rural areas of early America Church sponsored singing schools taught a form of musical notation in which the notes were assigned different shapes to indicate variations in pitch this method worked well with congregants who had little knowledge of standard musical notation Today many enthusiasts carry on the shape note tradition and The New Harp of Columbia recently published in a restored edition by the University of Tennessee Press is one of five shape note singing manuals still in use Jacket
