Raymond A. Belliotti

Different Roles Different Voices:

Voice in Political Discourse Antonio Reyes, 2011-10-13 *The Motherless State* Eileen McDonagh, 2009-08-01 American women attain more professional success than most of their counterparts around the world but they lag surprisingly far behind in the national political arena Women held only 15 percent of U S congressional seats in 2006 a proportion that ranks America behind eighty two other countries in terms of females elected to legislative office A compelling exploration of this deficiency *The Motherless State* reveals why the United States differs from comparable democracies that routinely elect far more women to their national governing bodies and chief executive positions Explaining that equal rights alone do not ensure equal access to political office Eileen McDonagh shows that electoral gender parity also requires public policies that represent maternal traits Most other democracies she demonstrates view women as more suited to govern because their governments have taken on maternal roles through social welfare provisions gender quotas or the continuance of symbolic hereditary monarchies The United States has not adopted such policies and until it does McDonagh insightfully warns American women run for office with a troubling disadvantage

New Labour's Women MPs Sarah Childs, 2004-07-31 It was not long after the election of a record number of women to the House of Commons in 1997 that the backlash began The criticism was all encompassing they wore the wrong clothes they voted the wrong way and they were concerned with the wrong issues Above all they were accused of failing to make difference to have failed women and were dismissed by some as Blair s Babes Drawing on in depth interviews with more than half of the new Labour women MPs Sarah Childs reveals how these women actually experienced being MPs and explores whether they acted for and like women in their constituencies in parliament and in government She presents important insights into theories of women s political representation showing that the relationship between women s descriptive and substantive representation is complicated that party and gender identities are crucial that women s differences must be acknowledged and that it might not always be possible for women representatives to act for women even if they want to Including a key section on women s selection for parliament whether women MPs act as role models why it is important that women should be present in politics as well as exploring in depth the subject of women s substantive representation *New Labour s Women MPs* is essential reading for all those interested in women and politics legislative studies political behaviour and representation

Women and British Party Politics Sarah Childs, 2008-04-08 *Women and British Party Politics* examines the characteristics of women s participation at the mass and elite level in contemporary British politics as voters party members and elected representatives respectively It explores what this means for ideas about and the practice of descriptive substantive and symbolic representation The main focus is on the feminization of British party politics the integration of women into formal political institutions and the integration of women s concerns and perspectives into political debate and policy in the post 1997 period Not only specifically designed to bring together cutting edge conceptual developments in the sub discipline of gender and politics with robust British empirical

research this book also presents reflections on how best to study gender and politics The empirical findings which are presented through the extensive use of case studies derive from a range of research projects which were undertaken over a period of ten years and which make use of a variety of research methods and techniques This book will appeal to all those with an interest in British Politics Feminism and European Studies and will provide the reader with an overview of the complex relationship between sex gender and politics in a conceptually sophisticated fashion
