The Diffusion and Consumption of Business Knowledge Jose Luis Alvarez, 2016-07-27 In the context of a united Europe the influence of business knowledge has become increasingly relevant as managers employees and organisations have to learn new practices and techniques in response to new knowledge and institutions This book addresses the way in which administrative knowledge is produced diffused and consumed in Europe by academics management gurus publishing houses consultants and practitioners It also looks at its impact on European business systems and management practices *The Politics of Management Knowledge* Professor Stewart R Clegg, Gill Palmer, 1996-09-16 The notion that management knowledge is universal culture neutral readily transferable to any country or situation has come under mounting challenge The Politics of Management Knowledge goes beyond such broad brush assertions to explore in detail the relations between management knowledge power and practice in a world where globalization highlights rather than obscures the locally specific character of many management recipes The book recognizes the political nature of management knowledge as a discourse produced from and reproducing power processes within and between organizations This theme underpins discussion of the ways in which management ideas and practices produce managers of a particular kind person of enterprise bureaucrat heroic leader and so on Critical examinations of certain current management theories lean production excellence entrepreneurship illuminate the myriad modes in which relations of power intermingle with relations of knowledge Eminent authors from a variety of countries address the social and political processes involved in cross cultural transference of management ideas across the world They also look to the future stressing the need for a substantial new understanding that is less attuned to the corporate worlds of today and more appropriate for the increasingly diverse organizations likely to emerge in the twenty first century *Handbook of Research on Global Information Technology Management in the Digital Economy* Raisinghani, Mahesh S., 2008-01-31 Includes the most important issues concepts trends and technologies in the field of global information technology management covering topics such as the technical platform for global IS applications information systems projects spanning cultures managing information technology in corporations and global information technology systems and socioeconomic development in developing countries **The Oxford Handbook of Work and Organization** Stephen Ackroyd, 2006 Aims to bring together present and discuss what is known about work and organizations and their connection to broader economic change in Europe and America This volume contains a range of theoretically informed essays which give comprehensive coverage of changes in work occupations and organizations *Trading Services in the Global Economy* Juan R. Management Ideas and Panaceas Anders Örténblad, 2015-12-18 Over time management ideas and panaceas have been presented alternately as quick fix cures for all corporate ills and the emperor's new clothes beset by flaws and problems This Handbook provides a different approach suggesting that management ideas and panaceas should not be either adopted or rejected outright but gives guidance in the art of assessing and applying management ideas and panaceas to various situations and contexts The contributors discuss the ways in which researchers organizational actors and higher educational institutions HEIs can more wisely test the relevance of management ideas and panaceas and adapt these to fit organizations in various contexts They conclude that in order to accomplish wiser relevance testing and adaptation there is a need for diversity critical examination and transparency All students scholars and researchers in management and organization with an interest in the adaptation and translation of management ideas and panaceas will find this book to be of interest Reflective practitioners will find the focus on context illuminating and helpful **Popular Management Books** Staffan
