Richard Jenkyns

Dignity And Decadence Victorian Art And The Classical Inheritance:

Dignity and Decadence Richard Jenkyns, 1991 The author of this book argues that although we think of the Victorian era as the age of gothic there is also a profound classical strain which runs through it His discussion includes the way in which cultural influences take over from and overlay each other and how styles develop

Dignity and Decadence Richard Jenkyns, 1992 The starting point for Richard Jenkyns s latest work is his contention that the Victorian age which we think of as the great age of Gothic was so shot through with the influence of the classical past that we should instead think of Victorian art and architecture as the continuing flow forward of two stylistic streams the Gothic and the classical side by side In advancing his argument Jenkyns turns our accepted notions of the Victorians upside down presenting Ruskin as an admirer of Greek statuary the Houses of Parliament as a classical rather than a Gothic composition and Thomas Woolner the only sculptor among the original Pre Raphaelite brotherhood as a neo Hellenic carver and poet Jenkyns moves effortlessly between the general and the particular and is refreshingly unafraid to make judgments Here are some of the best descriptions of Victorian painting sculpture and architecture to have appeared in recent years From the very gradual changes throughout the paintings of Leighton and Alma Tadema to the operettas of Gilbert and Sullivan the aesthetic scripture of Pater and even the advertisements for Beecham s pills Jenkyns shows how what had been merely eclectic became a distinctive fin de siecle style and eventually began to point the way for Modernism These are grand themes presented by a masterly guide Above all Jenkyns is entertaining *Dignity and Decadence* is one of the most illuminating and enjoyable books about the Victorians yet to appear

A Companion to Victorian Poetry Ciaran Cronin, 2008-04-15 This Companion brings together specially commissioned essays by distinguished international scholars that reflect both the diversity of Victorian poetry and the variety of critical approaches that illuminate it Approaches Victorian poetry by way of genre production and cultural context rather than through individual poets or poems Demonstrates how a particular poet or poem emerges from a number of overlapping cultural contexts Explores the relationships between work by different poets Recalls attention to a considerable body of poetry that has fallen into neglect Essays are informed by recent developments in textual and cultural theory Considers Victorian women poets in every chapter

Greek Myth and Western Art Karl Kilinski, 2013 This richly illustrated book examines the legacy of Greek mythology in Western art from the classical era to the present Tracing the emergence survival and transformation of key mythological figures and motifs from ancient Greece through the modern era it explores the enduring importance of such myths for artists and viewers in their own time and over the millennia that followed

Performing the Body/Performing the Text Amelia Jones, Andrew Stephenson Nfa, Andrew Stephenson, 2005-08-12 This book explores the new performativity in art theory and practice examining ways of rethinking interpretive processes in visual culture Since the 1960s visual art practices from body art to minimalism have taken contemporary art outside the museum and gallery by embracing theatricality and performance and exploding the boundaries

set by traditional art criticism The contributors argue that interpretation needs to be recognised as much more dynamic and contingent Offering its own performance script and embracing both canonical fine artists such as Manet De Kooning and Jasper Johns and performance artists such as Vito Acconci and Gunter Brus this book offers radical re readings of art works and points confidently towards new models for understanding art

The Use of Classical Art and Literature by Victorian Painters, 1860-1912 Rosemary J. Barrow, 2007 This book explores the reception of the classical world in painting from the mid Victorian period to the second decade of the twentieth century and centres on an examination of oil painting exhibited at the Royal Academy of Arts Page vii

Troy on Display Abigail Baker, 2019-10-03 This book explores what visitors saw at the Trojan exhibition and why its contents including treasure plain pottery and human remains captured imaginations and divided opinions When Schliemann s Trojan collection was first exhibited in 1877 no one had seen anything like it Schliemann claimed these objects had been owned by participants in the Trojan War and that they were tangible evidence that Homer s epics were true Yet these objects did not reflect the heroic past imagined by Victorians and a fierce controversy broke out about the collection s value and significance Schliemann invited Londoners to see the very unclassical objects on display as the roots of classical culture Artists poets historians race theorists bankers and humourists took up this challenge but their conclusions were not always to Schliemann s liking Troy s appeal lay in its materiality visitors could apply analytical techniques from aesthetic appreciation to skull measuring to the collection and draw their own conclusions This book argues for a deep examination of museum exhibitions as a constructed spatial experience which can transform how the past is seen This new angle on a famous archaeological discovery shows the museum as a site of controversy where hard evidence and wild imagination came together to form a lasting image of Troy

Poetica, 1994 *The Mirror of Antiquity* Dr. David Wills, 2007 During the last century writers as diverse as William Golding Henry Miller Lawrence Durrell Evelyn Waugh Virginia Woolf and Laurie Lee were captivated by Greece They were joined in their production of travel accounts by hundreds of lesser known authors This book exposes how the responses of travellers were conditioned by much more than their own opinions and personalities The British education system classical scholarship and the heroism demonstrated by the Greeks during the Nazi invasion of their country all contributed to shaping travel narratives The author analyses the way in which all of the major archaeological sites were described including the Athenian Acropolis Delphi Olympia Heinrich Schliemann TM s Mycenae and Sir Arthur Evans TM Knossos in Crete The representation of the modern Greek people particularly in the period after the Second World War is also explored at length Viewed as relics of the past the Greeks in literature were given the qualities and appearance of their ancestors David Wills shows how in the hands of twentieth century travel writers Greece became less a modern country and more a mirror of antiquity This book is essential reading for all who are interested in the history of travel and tourism reception of the classical past and recent Greek history

Kewpies and Beyond Shelley Armitage, 1994 The life times of the Kewpie doll its fascinating socially conscious creator *The Tulira Trilogy of Edward*

Martyn, 1859-1923, Irish Symbolist Dramatist Jerry Nolan, 2003 The Tulira Trilogy was the creation of the dreaming landlord of Tulira Castle County Galway Edward Martyn It explores the Irish national dream in a tragic mode which no other Irish dramatist of the period attempted After a century of neglect the plays are examined afresh in this new edition with a scholarly introduction which proposes a fundamental reevaluation of Edward Martyn as an Irish symbolist dramatist
