Early Humiliati:

The Early Humiliati Frances Andrews, 2000-01-27 This book is the first major study in English of a group of late twelfth century religious enthusiasts the early Humiliati who were condemned by the Church as heretics in 1184 However in a remarkable transition they were reconciled seventeen years later and went on to establish a highly successful religious order in north Italy The Humiliati have been accorded little attention in previous studies both because of their local nature and because of the suppression of the Order in 1571 after one of their number made a disastrous attempt to murder Charles Borromeo Using a combination of a wide range of sources the nature of the early movement and its processes of institutional development are reconstructed The book also includes a Bullarium Humiliatorum a calendar of papal and episcopal letters and privileges which will be of great use to scholars in the field

[Defenders and Critics of Franciscan Life](#) Michael F. Cusato, Guy Geltner, 2009 The essays in this volume were presented at a conference honoring John V Fleming at Princeton University on April 21 22 2004 The aim of the conference was to revisit Fleming's 1977 book *An Introduction to the Franciscan Literature of the Middle Ages* from a number of different perspectives including social religious and literary history as well as art exegesis political thought and the history of education A prominent but not exclusive theme of the contributions is the distinction between defenders and critics of medieval Franciscanism Recent scholarship has shown that the dividing line between medieval defenders and critics of Franciscan life was not as sharp or as clear as had once been thought This more nuanced approach to medieval Franciscanism is a reflection of the many scholarly developments that have occurred since and as a result of Fleming's volume The present work offers a selection of current approaches to the question
