The Oxford Handbook of Organizational Climate and Culture Karen M. Barbera,2014-05-07 The Oxford Handbook of Organizational Climate and Culture presents the breadth of topics from Industrial and Organizational Psychology and Organizational Behavior through the lenses of organizational climate and culture The Handbook reveals in great detail how in both research and practice climate and culture reciprocally influence each other The details reveal the many practices that organizations use to acquire develop manage motivate lead and treat employees both at home and in the multinational settings that characterize contemporary organizations Chapter authors are both expert in their fields of research and also represent current climate and culture practice in five national and international companies 3M McDonald s the Mayo Clinic PepsiCo and Tata In addition new approaches to the collection and analysis of climate and culture data are presented as well as new thinking about organizational change from an integrated climate and culture paradigm No other compendium integrates climate and culture thinking like this Handbook does and no other compendium presents both an up to date review of the theory and research on the many facets of climate and culture as well as contemporary practice The Handbook takes a climate and culture vantage point on micro approaches to human issues at work recruitment and hiring training and performance management motivation and fairness as well as organizational processes teams leadership careers communication and it also explicates the fact that these are lodged within firms that function in larger national and international contexts

Community Arts and Culture Initiatives in Singapore Zdravko Trivic,2020-09-15 What Can Space Do for the Arts What Can Arts Do for Space and What Can Arts and Space Do for the Community Through the lenses of creative placemaking and neighbourhood arts ecology Trivic re examines the position of community arts in the spatial social and cultural landscape Emphasising urban design considerations of complex interdependent relationships between arts space and people he re explores the role of community based arts activities in shaping urban neighbourhoods enriching public life and empowering communities This is divided into an analysis of spatial opportunities for the arts in the neighbourhood and a study of the impacts of bringing arts and culture activities into local neighbourhoods and communities using Singapore s nodal approach as a developed case study Using spatial opportunity analysis the book demonstrates a step by step procedure for identification and evaluation of the neighbourhood spaces that work best for community arts and culture activities In the study of impacts Trivic proposes a holistic framework for capturing and evaluating the non economic impacts of arts and culture on space society well being education and participation An invaluable template for arts event organisers and artists to assess and maximise the outcomes of their creative efforts in local neighbourhoods as well as an important reading for students and practitioners of neighbourhood planning urban design and creative placemaking

Language and Culture Karen Risager,2006-01-01 The book presents a new theory of the relationship between language and culture in a transnational and global perspective The fundamental view is that languages spread across cultures and

cultures spread across languages or in other words that linguistic and cultural practices flow through social networks in the world along partially different paths and across national structures and communities The Forester James Brown,1871
