

## BACKGROUNDS #1

Choose a background that reflects your design but doesn't distract from your message. Think about color, contrast and what you can easily layer on top of it, without the design becoming too busy overall.

You could choose to use the same background for every page of your design for consistency.

## FONTS #1

Limit the number of fonts you use.

Using lots of fonts on one page makes it harder to read and can look visually messy.
