encourages original thought and action to support learning through exploration and investigation recognising that creativity is about representing one's own image and not reproducing someone else's. Early Years Educator Inspirational This book is easy to read, refreshing and exciting and I would recommend it to all those working with young children. It is also useful for students clearly articulating the reasons for providing well-organised, child-initiated creative opportunities rather than adult-directed activities. Nursery World It is an interesting and informative manual aimed at those who work with children in the 3-5 years age range and is therefore most suited to anyone in a Pre-School or Day Nursery setting and could also be valuable to a Reception Teacher. Overall, I found this to be a very useful book. Everyone involved in working with young children should read this book. Nursery practitioners, early years teachers, Sure Start workers, play workers and Children's Centre staff will find it an invaluable resource. It is also useful for specialist staff in hospitals and other areas of health. **Young Children and the Arts** Carol Korn-Bursztyn, 2012-02-28 This book explores the role of the arts in young children's lives at home, school and community. It offers guidelines for teachers, families and caregivers, emphasizing participatory creative activities. The book addresses early childhood education, family and community roles, and arts policy. Creative Arts in the Lives of Young Children Robyn Ewing, 2013-01-01 Creative Arts in the Lives of Young Children draws together two essential strands in contemporary educational discourse: the importance of high-quality care and education in the early years and the central role that imaginative arts experiences can and should play in the lives of all young children. A number of underlying themes are highlighted throughout the book. All are related to the potential for quality arts experiences in the early years to achieve transformational outcomes for children. These include the enhancement and development of children's creativity and imagination; the encouragement of children's innate problem-solving abilities; the opportunity to experience a diversity of cultures and a broad world view; the scaffolding of positive attitudes, skills, and ways of being; habits of mind to help children flourish in the 21st century. The book is grounded in current research and practice about the importance of the arts in young children's lives. Written explicitly for early childhood pre-service and in-service teachers, parents, and caregivers, it includes a range of engaging and practical creative arts activities and suggested experiences for children from birth to eight years of age. Creative Arts in the Lives of Young Children provides a combination of research, activities, and real-world vignettes. It reinforces partnerships between parents and early childhood practitioners and teachers. The book covers a broad range of

artistic experiences such as storytelling art appreciation puppetry paint clay drama and music
