Mikoyan MiG-29 Fulcrum E. Gordon, Yefim Gordon, 1999 Developed to meet the Soviet Union s requirement for a dual fighter and ground attack aircraft the MiG 29 entered operational service in 1983 Russian author and aviation expert Yefim Gordon interviews Mikoyan design and engineer personnel to reveal the development and operational history of the MiG 29 With access to all design and production records as well as declassified technical drawings and photographs Gordon has assembled the ultimate reference to this Cold War fighter of which an estimated 500 are still believed to be in service around the globe including in Russia Bulgaria Cuba Czechoslovakia Hungary India Iraq Iran Poland and Malaysia **Gulf War Air Power Survey**, 1993 *Technical Reports Awareness Circular : TRAC.*, 1987-10 **Air Force Magazine**, 1993 Computer Gaming World, 1999 **History of Maintenance of Indian Air Force 1977-2016** A Krupakaran, P Khandekar, 2022-08-13 IAF from its humble beginning in 1932 has transformed itself into fourth largest AF operating at frontiers of technologies with multi dimensional capabilities and a potent force to reckon with It is said that the history is written by winners But what is important is that the history is documented impartially objectively and factually as much as possible It may be worth for IAF to consider coming out with a book each on Operations Maintenance and Administration depicting the historical decisions taken successes and failures in equal measure and how the IAF progressed over the decades to be what it is today a professionally managed optimally exploited synergistically working and one of the most effective instruments of national power to ensure accomplishing objectives of the nation Yes coffee table books and anniversary issues do gloss over a few events but the real history is made by the toil blood and sweat and tears of the men behind these operations Individual awards and citations many times compromise on actualities and are miserly with truth
