Foreword By Gary North

Baptized Inflation A Critique Of Christian Keynesianism

Christian G. Meyer

Baptized Inflation A Critique Of Christian Keynesianism:

Baptized Inflation Ian Hodge,1986 For about three decades from the mid 1930s until the mid 1960s the economic ideas of one man ruled the Western world John Maynard Keynes Even today his aging disciples have only recently begun to retire from university teaching in sufficient numbers so as to allow a serious debate in economics to reappear after half a century in the better universities Who is Douglas Vickers He is an obscure economics professor who wrote two books defending Keynesian economics in the name of the Bible These books never sold well but they became briefly popular in the economics departments of several equally obscure Christian colleges Baptized Inflation is a refutation of the writings of Douglas Vickers But it is more than this It is a Bible based critique of the monstrous lies of Keynesian economics and written in clear language unlike the books of Keynes and Vickers It also sets forth the biblical case for the free market economy Back cover

Baptized Inflation: A Critique of Christian Keynesianism ,1996 The Institute for Christian Economics ICE in Tyler Texas presents the full text of Baptized Inflation A Critique of Christian Keynesianism as part of the ICE FreeBooks resource The book was written by Ian Hodge was originally published in 1986 and is available online in HTML or PDF format The author refutes the ideas of English economist John Maynard Keynes 1883 1946 and the writings of economist Douglas Vickers who wrote books defending Keynesian economics **Baptized Inflation** Hodge Ian,1986-01-01 **What's Wrong with**

Keynesian Economic Theory? Steven Kates,2016-08-26 Possibly the strangest phenomenon in all of economics is the absence of a long tradition of criticism focused on Keynesian economic theory Keynesian demand management has been at the centre of some of the worst economic outcomes in history from the great stagflation of the 1970s to the lost decade and more in Japan following the expenditure program of the 1990s And once again following the Global Financial Crisis it is incontrovertible that no stimulus program in any part of the world has been a success each one having been abandoned as conditions deteriorated under the weight of public sector spending This book brings together some of the most vocal critics of Keynesian economics Each author attempts to explain what is wrong with Keynesian theory in ways that can be understood by those seeking guidance on where to turn for a more accurate explanation of the business cycle and on what to do when recessions occur *Hayek: A Collaborative Biography* R. Leeson,2015-01-15 F A Hayek 1899 1992 the co leader of the Austrian free market school embraced the transparently fraudulent assertion made by Donald McCormick aka Richard Deacon in The British Connection which accused A C Pigou the co leader of the Cambridge market failure school of being a Soviet spy *Hayek: A Collaborative Biography* Robert Leeson,2017-10-04 F A von Hayek 1899 1992 was a Nobel Prize winning economist famous for promoting an Austrian version of classical liberalism This multi volume biography examines the evolution of his life and influence In this ninth volume of Leeson s collaborative biography of Friedrich August von Hayek a variety of well known contributors discuss Hayek s views on the divine right of the market taking democratic and free market principles into account *Biblical Counsel* ,1993 *Salvation Through Inflation* Gary North,1993 Errata slip

Symposium

on Inflation (JCR Vol. 07 No. 01) Bruce Bartlett, M. A.,Carl Bogue, Th.D.,Donald Kemmerer, Ph.D.,Robert Metcalf,Gary

North, Ph.D.,Tommy W. Rogers, Ph.D.,Tom Rose, M.A.,Hans Sennholz, Ph.D.,Mark Skousen, Ph.D.,Stan F. Vaninger, M.S.,Jim

West, M.Div., The inflation crisis is now an international phenomenon The whole industrialized world is suffering from

chronic price inflation and no government seems to be able to do anything about it When those of us associated with

Chalcedon began warning people of the impending inflation back in 1964 few listeners took us seriously They simply cold not

accept the fact that governments would not control their monetary policies But year after year as monetary inflation has

continued thereby producing price inflation people have learned the grim reality of what we warned about a decade and a

half ago The problem facing us today is massive Few people understand the inflation process and when people don t

understand what the cause of their problem is and the problem gets serious enough then they are likely to make serious

errors personal financial errors political errors and policy errors If Christians have no better understanding of the causes and

cures for inflation than the secular world does then we are not going to be in a position to exercise effective leadership The

trouble is everyone thinks he knows what inflation is all about A person who wouldn t venture an opinion concerning physical

chemistry or astrophysics is ready with an explanation for inflation About the only things not going up in price today are dime

a dozen solutions to inflation And given their value they shouldn t be going up in price the supply of them keeps increasing

too fast What the latest issue of The Journal covers is the inflation question causes effects cures and ineffective solutions that

have failed in the past We hope that people who have read this issue will have a far better perspective on the subject what to

do about it personally what the political authorities should do and what we can expect them to do We can expect them to take

steps that will compound the problems The intellectual father of modern price inflation was John Maynard Keynes It is the

universal popularity of Keynes ideology and ideology favorable to government intervention and printing press money which

has led to the monetary policies of today Ideas have consequences and Keynes had some exceedingly bad ideas The

professors in the universities who have infected two generations of students with Keynesian economic theory are still in

power fully tenured and still somewhat respectable But these men are now trapped by their own ideology price inflation is

wiping out faculty salaries and pensions This is precisely what Keynes said would happen the reduction of real purchasing

power despite nominal increases in wages Instead of the workers getting deceived by this phenomenon it has been the

professors When this era s economics are destroyed by the ravages of inflation controls unemployment and market instability

the utter nonsense published by the economists over the last 40 years will be seen for what it was incomprehensible overly

mathematical propaganda for the construction of a statist society What Christian laymen need to understand in advance is

that professional economists supposedly orthodox in their Christian faith have generally bought the Keynesian ideology We have to be ready to abandon all such attempts to fuse Keynesian economics and Christian faith We have to disassociate ourselves from all versions of baptized Keynesianism so that when public repudiation comes in the wake of economic destruction Christians will be able to say We warned you about this Now listen to us while we lay out the answers One of the nicest features of the last 15 years of international price inflation has been the erosion of faculty pension funds university endowments and the reputation of the big name Keynesian advisors They still have some prestige left just as they still have some money left in their pension funds but they are in trouble The public is beginning to catch on If these economic doctors can't seem to be able to beat inflation in their own lives why should anyone take them seriously These two bit emperors have no clothes All they have left to cover themselves are their Ph D s Now that these have been debased through overproduction they don't mean as much as they used to The Bible does have answers It has solutions to the problem of inflation They Keynesians have never taken the Bible seriously as a guide to economic policy including the Keynesians who teach on Christian college campuses We have to be able to spot nonsense solutions when they are offered in the name of Science or Christianity Can we have inflation and unemployment simultaneously The Keynesians used to say no Now we see both Can the boom bust cycle be avoided through fine tuning the economy the Keynesians used to say yes Now we know how wrong they have been Will the government be able to find a politically acceptable solution to inflation before mass inflation wipes out the middle class None has been able to do it so far Will the middle class wake up in time Some of them have but as they do prices rise even more rapidly as they seek to find inflation hedges Will any of these hedges really work Did any of them work in the great German inflation of 1921-23 What will be the effect on society of continuing inflation Who will be hurt most Will anyone profit All of these questions are covered in the latest issue Keynesians in the classroom won't appreciate the answers but The Journal isn't aimed at them anyway except insofar as you would aim a shotgun The economies of the West are in serious trouble and this trouble is going to become far worse over the next half decade Christians had better be forewarned If Christians fare no better in the coming crises than humanists then they will hardly be in a position to offer advice after the crash
