Segel, 1974 Neobaroque in the Americas Monika Kaup, 2012 In a comparative and interdisciplinary analysis of modern and postmodern literature film art and visual culture Monika Kaup examines the twentieth century's recovery of the baroque within a hemispheric framework embracing North America Latin America and U S Latino a culture As neobaroque comes to the forefront of New World studies attention to transcultural dynamics is overturning the traditional scholarship that confined the baroque to a specific period class and ideology in the seventeenth century Reflecting on the rich nonlinear genealogy of baroque expression Neobaroque in the Americas envisions the baroque as an anti proprietary expression that brings together seemingly disparate writers and artists and contributes to the new studies in global modernity **Continuum 2** Alessandro De Francesco, 2024 This volume gathers Alessandro De Francesco's essays and theoretical writings produced from 2015 to 2022 It follows the first volume Continuum Writings on Poetry as Artistic Practice reuniting essays written between 2007 and 2015 The title of this new volume could only be Continuum 2 given that the underlying concept remains the same to testify to the seamless continuity of the author's commitment to poetry and art over the years and to reaffirm at the same time on a theoretical level a model of creation and thinking as a continuous flow not discretized not quantized but organic liquid without end or beginning a kind of linguistic translation of the space time in which every text like every other object is necessarily immersed Continuum 2 is a trilingual book containing writings in English French and Italian and it is particularly focused on two lines of inquiry the author's ongoing meditation on the poetic practice and the first steps of his new investigation into seventeenth century art poetry and forms of thought **The New World of the Gothic Fox** Claudio Veliz, 2023-04-28 Claudio Veliz adopts the provocative metaphor of foxes and hedgehogs that Isaiah Berlin used to describe opposite types of thinkers Applying this metaphor to modern culture economic systems and the history of the New World Veliz provides an original and lively approach to understanding the development of English and Spanish America over the past 500 years According to Veliz the dominant cultural achievements of Europe's English and Spanish speaking peoples have been the Industrial Revolution and the Counter Reformation respectively These overwhelming cultural constructions have strongly influenced the subsequent historical developments of their great cultural outposts in North and South America The British brought to the New World a stubborn ability to thrive on diversity and change that was entirely consistent with their vernacular Gothic style The Iberians by contrast brought a cultural tradition shaped like a vast baroque dome a monument to their successful attempt to arrest the changes that threatened their imperial moment Veliz
