Grove,2019-08-21 This book was originally published in 1957 During the First World War German use of unrestricted submarine warfare supported by extensive mining and surface raids very nearly forced Britain out of the war in 1917 The island s heavy dependence on seaborne supplies was gravely threatened again in 1939 supplemented this time by air attacks on shipping After the war Commanders Waters and Barley wrote a Naval Staff History which has long been recognised as an authoritative study of the impact of the German campaign and its ultimate defeat by Britain and her allies It remains an indispensable basis for any serious study of the Battle of the Atlantic and has here been updated and revised by Dr Grove who also contributes a perceptive introduction outlining its significance      Recueil Des Traités League of Nations,1929      Egypt and the Sûdân Karl Baedeker (Firm),1929

coloured graphics has been particularly well thought out and encourages readers to delve into the figures and learn more about the region rather than having the all too common opposite effect. Summing up the jury praises not just the high quality of the texts, the information and the illustrations but also the sheer pleasure of reading the book. One of the key attributes of a good book is to be able to grip the reader's attention and transport him or her to another place. We feel confident that *Living on the edge* will have that effect.
