Baseball History ,1986 Spitballers Charles F. Faber,Richard B. Faber,2014-09-17 On September 10 1934 grizzled reliever Burleigh Grimes helped the Pittsburgh Pirates to an inconsequential 9 7 win over the New York Giants in the Polo Grounds For Grimes the September contest marked his 270th and final win For baseball it marked the last time a legal spitballer would win a major league contest Though the pitch had been banned in 1920 the American and National leagues both agreed to grant two exemptions per team to spitballers who were already in the majors In 1921 both leagues agreed to extend grandfather provisions to cover the veteran spitball pitchers for the remainder of their careers Under the extended rule 17 pitchers were granted exemptions for their careers This work looks at the lives and careers of these 17 Red Faber Burleigh Grimes Jack Quinn Urban Shocker Stan Coveleskie Bill Doak Ray Caldwell Clarence Mitchell Dutch Leonard Ray Fisher Dick Rudolph Allen Sothoron Phil Douglas Allan Russell Doc Ayers Dana Fillingim and Marvin Goodwin **Major League Careers Cut Short** Charles F. Faber,2014-01-10 Since 1876 approximately 16 000 young men have enjoyed at least a taste of glory by appearing in big league games many of them only a few times By the end of the 2009 season out of the millions who have aspired fewer than three thousand individuals had had the good fortune to be a major league regular for five or more seasons The median age at which they hung up their spikes was 35 However 197 men played in their last big league contest at the age of 30 or younger With a focus on the stories of 15 greats and near greats this book provides information on these 197 men Why did their careers end so soon The reasons are varied and include drug and alcohol abuse suicide illness injury banishment and declining ability among others *Baseball's Best Careers* Michael S. Jones,2001 A great career in baseball takes unflagging excellence year after year and is a demanding measure of success This work presents rankings of the best career performances in baseball history by position for each team in the American and National leagues Players are measured both by rate and volume of success The rankings are also translated into All Star lineups for each team Baseballs Best Careers in a departure from other latter day stats books everywhere adheres to common sense The

book for instance assigns a player's career performance to a single primary team. The numbers of Rogers Hornsby then who batted 380 and hit 39 home runs for the Cubs in 1929 are attributed to the St. Louis Cardinals for whom Hornsby played most of his games. And so the historic value of the second baseman's career is preserved and Ryne Sandberg, Johnny Evers, Glenn Beckert and Billy Herman, the rightful contenders for the Cubs all-time spot at second, are free to fight it out. Several sabermetric measures are employed in compiling the rankings which have been adjusted for hitting and pitching biases over periods of time. Raw historical statistics are examined and the author explains why some statistics are used in his work to measure performance while others are discarded as nonindicators of performance. For each team, statistical ratings and rankings are provided as are brief player profiles of that club's All-Star team members.

Baseball Pioneers Charles F. Faber, 1997-04-15. Cap Anson, King Kelly, Wee Willie Keeler, three of the best hitters in baseball's infancy. But which of these three was the best? And who was the era's top pitcher? Pud Galvin, Cy Young, Joe McGinnity. This unique reference work provides the answers to these questions and many others. Position by position, men who played all or the majority of their major league career in the nineteenth century are ranked. Hitting and fielding ratings are given for infielders and outfielders appearing in at least two thirds of their team's games and all catchers appearing in at least one half of the season's games. Pitchers involved in 15 or more decisions are also included with their ratings weighted so that those on weak teams can be fairly compared with hurlers on strong teams.

Ranking Baseball's Elite A. W. Laird, 1990. According to selection criteria the author has developed, he ranks baseball's greatest players in order of greatness, chooses the best baseball player between 1893 and 1987, lists seven all-time All-Star teams and reviews the early Negro baseball leagues and players.

Base Ball, 2007. Covers amateur and professional baseball through 1920, including protoball antecedents and analogs.

The Baseball Bibliography Myron J. Smith (Jr.), 2006. With over 57,000 entries, this two-volume set is the most comprehensive non-electronic, non-database print bibliography on any American sport. Represented here are books and monographs, scholarly papers, government documents, doctoral dissertations, masters theses, poetry and fiction, novels, pro team yearbooks, college and professional All-Star Game and World Series programs, commercially produced yearbooks and periodical and journal articles. Stat One Craig Messmer, 2008-01-07. Get ready for the mother of all numbers. If you had to give just one number to determine a baseball player's success, which would you pick? Batting average, RBI, OPS, home run percentage. It's impossible to choose. Now you don't have to. For the first time ever, there's a formula that incorporates every aspect of a player's offensive game into one stat that gets straight to the core of performance. The

Offensive Production and Efficiency Average or P E Average for short gives you a comprehensive measure of everyone who has ever played the game Stat One walks you through the calculations and then takes you around the field to analyze rate and rank the greatest players in baseball history at every position You ll find surprising answers to the questions that really matter Who s better on first Foxx or Gehrig Is Jim Rice a Hall of Famer Would Derek Jeter come up short next to old Honus Wagner How does Mantle compare with Mays And much more plus the 100 greatest players of all time *The American Presidents Ranked by Performance* Charles F. Faber, Richard B. Faber, 2000 What makes a good American president The answers to this question have been sought by a variety of means since the very beginning of the presidency Some contend that a foreign policy makes one superior to another while others contend that certain personal qualities make a man best Here America s presidents are rated using a system that evaluates their effectiveness in some of the most critical aspects of the office Foreign Relations Domestic Programs Administration and Intergovernmental Relations Leadership and Decision Making and Personal Qualities Each president is scored in his fulfillment of each aspect of the office and analysis is provided for all the scores The presidents are then ranked overall The most overrated and underrated commanders in chief are also examined The presidents are then analyzed individually in chronological order and each entry includes biographical and political information as well as analysis of personal qualities A bibliography and index are included **Baseball** Myron J. Smith, 1998 Covering all aspects of baseball this supplement contains listings for reference works general works histories special studies professional leagues and teams youth foreign and amateur leagues and rules It contains over 5100 new references *Total Baseball*, 2001 **Baseball Players' Best Seasons** Michael S. Jones, 2001 More than any other sport baseball is about statistics the numbers do not lie The players who shine in the boxscore are the ones most likely remembered and a single spectacular season can cement a player s place in history This book acknowledges not only the baseball fan s passion for player to player comparisons but also the tug of team loyalty on the game s enthusiasts Providing the statistical tools to better gauge the performance of players between teams and through time the work allows Cubs fans for instance to ask and answer whether the best deadball performances by Brown Reulbach and Vaughn should be weighed more lightly than those by pitchers like Alexander Warneke and Jenkins who shined in later more hitter friendly eras Team by team for both the National and American leagues this reference ranks the best season performances by position in baseball history A dual ranking system considers both the volume and the rate of success achieved by a player in a particular season with several sabremetric devices forming the basis of the rankings All Star line ups are compiled for each team as well as a brief history of each team and its players
