Basel Sehen Seeing Basel:

Seeing Zumthor Hans Danuser, Köbi Gantenbein, Philip Ursprung, 2009 Hans Danuser is among the foremost contemporary Swiss photographic artists His photographs of buildings by the Swiss architect Peter Zumthor ignited a debate on buildings images and history when they were first shown This work presents a selection of Danuser s Zumthor pictures

Bilanz ,2002 Buschmänner Rolf Frei, Tonio Passlick, Oliver Mayerle, 2001 **Das Schweizer Buch** ,2006 Basler Bibliographie ,2001 *Bibliographia scientiae naturalis Helvetica* ,2001 Seeing as Practice Eva Schuermann, 2019-12-02

This study provides an overview of philosophical questions relating to sight and vision It discusses the intertwinement of seeing and ways of seeing against the background of an entirely different theoretical framework Seeing is both a proven means of acquiring information and a personality specific way of disclosing the apparent perceptible world conditioned by individual and cultural variations In a peculiar way the eye holds a middle position between inside and outside of the self and its relations towards itself and others This book provides a way out of false alternatives by offering a third way with reference to concrete cases of aesthetical and ethical experiences It will be of particular interest to scholars of the phenomenology and philosophy of perception and it will be valuable to students of philosophy cultural studies and art *The Poet as*

Phenomenologist Luke Fischer, 2015-02-26 *The Poet as Phenomenologist* Rilke and the New Poems opens up new perspectives on the relation between Rilke s poetry and phenomenological philosophy illustrating the ways in which poetry can offer an exceptional response to the philosophical problem of dualism Drawing on the work of Husserl Heidegger and Merleau Ponty Luke Fischer makes a new contribution to the tradition of phenomenological poetics and expands the debate among Germanists concerning the phenomenological status of Rilke s poetry which has been severely limited to comparisons of Rilke and Husserl Fischer explicates an implicit phenomenology of perception in Rilke s writings from his middle period 1902 1910 He argues that Rilke cultivated an artistic perception that in a philosophically significant manner overcomes the opposition between the sensuous and the intelligible while simultaneously transcending the boundaries of philosophy Fischer offers novel interpretations of central poems from Rilke s *Neue Gedichte* 1907 and *Der neuen Gedichte anderer Teil* 1908 and frames them as the ultimate articulation of Rilke s non dualistic vision He thus demonstrates the continuity between Rilke and phenomenology while arguing that poetry in this case provides the most adequate response to a philosophical problem Thinking Color in Space Kerstin Schultz, Hedwig Wiedemann-Tokarz, Eva Maria Herrmann, 2018-12-03

The interaction between color and architecture determines our perception of space and defines the tectonic relationships The fascinating spatial potential of color and the multi layered dimensions of interpretation in the experience of color are design and communication means which however are often not fully used color oscillates between autonomy and functional purpose and should be understood as a distinct material that can be used as part of the design The book focuses both on the tangible aspects and design criteria of color and on its indeterminate nature and its experience value Using examples in art and

architecture the spatial interdependency of color is illustrated as is its interaction with structure light and geometry

The Life and Works of Wolfgang Borchert Gordon J. A. Burgess, 2003 This study charts Wolfgang Borchert's development from a rebellious teenager with a passion for acting via his service in the Wehrmacht and his imprisonment by the Nazis to his brief but intense career as an important postwar dramatist and writer of short stories

'Being Towards Death' Sylvie Avakian, 2021-04-19 This book draws the philosophical contribution of Martin Heidegger together with theological spiritual insights from the East especially that of Nikolai Berdyaev Thus it brings into dialogue the West with the East and philosophy with theology By doing so it offers Christian theology an existential spiritual language that is relevant and meaningful for the contemporary reader In particular the work explores Heidegger's being towards death Sein zum Tode as the basis for theological philosophical thinking Only the one who embraces being towards death has the courage to think and poetize This thinking in turn makes being towards death possible and in this circular movement of thinking and being the mystery of being reveals itself and yet remains hidden Since the work aims at demonstrating being towards death through language it transitions away from the common formulations and traditionally accepted ways of writing dogmatic theology towards an original philosophical reflection on faith and spirituality At different points however the work also retrieves the profound thoughts and theologies of the past the insightful creativity of which cannot be denied

Morphological Change Up Close David Fertig, 2017-12-04 Using a data base of more than 86 000 verb tokens from texts written by Nurembergers between 1356 and 1619 this book explores some of the many changes in verbal inflection that took place during this period and their implications for a number of important questions in morphological and diachronic theory The changes discussed include the leveling of stem vowel and consonant alternations and regularizations and irregularizations The theoretical issues addressed include the directionality of analogical leveling the adequacy of connectionist and related models of morphological processing and the relationship between sociolinguistic variation and diachronic change

Risk, Risk Management and Regulation in the Banking Industry Peter Pelzer, 2013 This highly original book aims to broaden the discussion about risk the management of risk and regulation especially in the financial industry By using terms of the philosopher Jacques Derrida Peter Pelzer employs philosophical concepts to enrich the understanding of what risk is about and what is necessarily excluded in contemporary risk management
