New Introduction to Geographical Economics Steven Brakman,Harry Garretsen,Charles van Marrewijk,2009-04-09
Geographical economics starts from the observation that economic activity is clearly not randomly distributed across space
This revised and updated introduction to geographical economics uses the modern tools of economic theory to explain the
who why and where of the location of economic activity The text provides an integrated first principles introduction to
geographical economics for advanced undergraduate students and first year graduate students and has been thoroughly
revised and updated to reflect important developments in the field including new chapters on alternative core models and
policy implications It presents a truly global analysis of issues in geographical economics using case studies from all over the
world including North America Europe Africa and Australasia and contains many computer simulations and end of chapter
exercises to encourage learning and understanding through application The Geographic Basis of American Economic Life
