**Sapientia Astrologica: Astrology, Magic and Natural Knowledge, ca. 1250-1800** H Darrel Rutkin,2019-04-24 This book explores the changing perspective of astrology from the Middle Ages to the Early Modern Era It introduces a framework for understanding both its former centrality and its later removal from legitimate knowledge and practice The discussion reconstructs the changing roles of astrology in Western science theology and culture from 1250 to 1500 The author considers both the how and the why He analyzes and integrates a broad range of sources This analysis shows that the history of astrology in particular the story of the protracted criticism and ultimate removal of astrology from the realm of legitimate knowledge and practice is crucial for fully understanding the transition from premodern Aristotelian Ptolemaic natural philosophy to modern Newtonian science This removal the author argues was neither obvious nor unproblematic Astrology was not some sort of magical nebulous hodge podge of beliefs Rather astrology emerged in the 13th century as a richly mathematical system that served to integrate astronomy and natural philosophy precisely the aim of the New Science of the 17th century As such it becomes a fundamentally important historical question to determine why this promising astrological synthesis was rejected in favor of a rather different mathematical natural philosophy and one with a very

different causal structure than Aristotle's **Old Moore's Monthly Messenger**, 1908 **Prognostication in the Medieval World** Matthias Heiduk, Klaus Herbers, Hans-Christian Lehner, 2020-11-09 Two opposing views of the future in the Middle Ages dominate recent historical scholarship According to one opinion medieval societies were expecting the near end of the world and therefore had no concept of the future According to the other opinion the expectation of the near end created a drive to change the world for the better and thus for innovation Close inspection of the history of prognostication reveals the continuous attempts and multifold methods to recognize and interpret God's will the prodigies of nature and the patterns of time That proves on the one hand the constant human uncertainty facing the contingencies of the future On the other hand it demonstrates the firm belief during the Middle Ages in a future which could be shaped and even manipulated The handbook provides the first overview of current historical research on medieval prognostication It considers the entangled influences and transmissions between Christian Jewish Islamic and non monotheistic societies during the period from a wide range of perspectives An international team of 63 renowned authors from about a dozen different academic disciplines contributed to this comprehensive overview *Dictionary of Alchemy* Mark Haeffner, 2004-01-31 Alchemy is a rich and complex esoteric tradition that has flourished world wide since the beginning of recorded history if not earlier There are three main traditions Western Christian Indo-tibetan and Chinese Taoist Within this diversity there are many common features which are analysed organized and brought together in this comprehensive dictionary of terms symbols and personalities This dictionary is the distillation of many years research into the extensive arcane literature It is a reference work to guide the readers through the labyrinth of pre-Newtonian science and philosophy The dictionary covers not only the materialist dimension of the search for the elixir of life and the transmutation of metals but also the inner search for the gold of mystical illumination Jung called alchemy the projection of a drama both cosmic and spiritual in laboratory terms This opus alchymicum goes beyond the bare analysis and interpretation of terms to present a harmonic integrated vision of man and nature which may help to heal the fragmented world view of modern science *What is Astrology?* Alan Leo, 1907 *A Time for Magick* Maria Kay Simms, 2001 This is a guide to applying aspects of astrology known as electional and planetary hours to ritual magick and spellcraft The reader will learn the appropriate activities for each phase of the moon rituals for each of the planets and more **Everybody's Astrology** Alan Leo, 1910 *Beginner's Horoscope Maker* Elbert Benjamine, 1943
