is difficult enough crossing thousands of miles of ocean only to get near land at the Capes and battle treacherous currents
However hundreds of sailors have still managed it Adrian became obsessed with the idea of sailing vertically around the
world as a boy before he even knew whether it was possible Thirty years later he managed it This is his own account of his
remarkable adventure It was an epic challenge sailing through the perilous waters around Cape Horn and across the remote
hostile stretch of the Russian Arctic He survived being washed overboard capsizing a close encounter with pirates and also
managed to treat not one but two dislocated wrists all of this alone a thousand miles or more from anyone who could help
him complete his quest It wasn t all high drama however Adrian experienced moments of awe inspiring beauty being
accompanied by a pod of whales and swimming with dolphins This is a timeless and unique story pacily written with a sense

of humour but which captures the zeal and determination required to accomplish something nobody else has ever done before
