International League Marshall D. Wright, 2024-10-14 From 1884 to 1953 the International League enjoyed a measure of stability that was the envy of many other minor leagues With franchises located in cities along the East Coast and Canada including Newark Toronto Baltimore Montreal and Providence the circuit produced a brand of baseball that was only a bit below that of the majors This is the complete year by year team by team statistical history of the first 70 years of the International League from its beginnings with the Eastern League in 1854 to 1953 when longtime member Baltimore was forced to relocate its franchise to make way for a major league team For each season there is a brief essay that covers the league s highlights and its champion Full rosters for each team are then provided with complete statistics for all players

The Architecture of the Playing Field Richard L. Cleary, 2025-05-06 A novel exploration of playing fields as aesthetic and architectural spaces that frame athletes creativity and spectators evolving experiences of sport The playing field is more than an arena for sporting rivalry It is a laboratory of invention where athletes and coaches create new uses for the human body in response to the constraints and affordances of space Indeed Richard Cleary argues that from translucent squash courts to the NBA three point line to the city streets used by skateboarders all sports have embedded spatial relationships that are also charged with social significance The Architecture of the Playing Field explores the aesthetic and physical experiences of the grounds on which we compete Cleary digs into the perspectives of spectators athletes coaches and umpires perspectives that have changed along with the shifting configuration and mediation of the field from early live sports coverage to today s TV broadcasts overlaid with high tech graphics and observed from every angle Cleary shows how rules governing the size shape

and divisions of the field reflect sports entwinement with societies at large in particular the politics of race and gender Mindful as well that some sports resist containment he analyzes the disruptive use of space by snowboarders and parkour athletes The Architecture of the Playing Field sensitizes us to the interplay of settings and bodies in motion fundamental to the power of sport
