

## **Commentary on *Hamlet* by William Shakespeare**

*Hamlet* by William Shakespeare is one of the most famous plays in the world and an important part of English literature. Written around the year 1600, it tells the story of Prince Hamlet of Denmark, who finds out that his father, the king, was murdered by his uncle Claudius. After the murder, Claudius becomes the new king and even marries Hamlet's mother, Queen Gertrude. From this moment, Hamlet is caught between the duty to take revenge and his doubts about life, death, and justice.

The play is not just a simple revenge story. It is also a deep reflection on what it means to be human, to have feelings and be full of doubt. Hamlet is a very different kind of hero compared to other characters from tragedies of that time. Instead of acting quickly, he spends much of the play thinking, asking questions, and wondering what is right or wrong. This makes him a very modern character, because his doubts and fears are similar to the ones many people still have today.

One of the most important themes in the play is the conflict between action and inaction. Hamlet knows he must avenge his father, but he is not sure how and when to do it. His famous line, "To be, or not to be," shows his inner struggle: should he accept the pain of life, or fight against it even if it means death? This story is not only about revenge, but about the meaning of existence itself. His hesitation shows that he is not a simple avenger but a thoughtful man who feels the heavy responsibility of his choices.

Another key theme is betrayal and corruption. Claudius represents evil and ambition, because he kills his own brother to take the throne. Gertrude, Hamlet's mother, also disappoints him by marrying Claudius so quickly. To Hamlet, this looks like betrayal and weakness. Even his friends, Rosencrantz and Guildenstern, are not loyal, because they secretly work for Claudius. This atmosphere of lies and dishonesty makes Hamlet feel more and more isolated. Shakespeare shows that when corruption enters a family or a country, it destroys trust and brings tragedy.

Madness is also an important element in the play. Hamlet pretends to be insane so he can discover Claudius's guilt without being suspected. But sometimes it is not clear if his madness is only an act, or if he is truly losing control. On the other hand, Ophelia, who loves Hamlet, falls into real madness after her father Polonius is killed by Hamlet and after Hamlet rejects her. Her death by drowning is one of the saddest moments in the play, and it shows how fragile people can be when faced with grief and loss.

The play is also full of reflections on death. Hamlet thinks about it many times, not only in his soliloquies but also in the famous graveyard scene, when he talks to the skull of Yorick, the king's jester. Here, Hamlet realizes that no matter if someone was rich, powerful, or poor, in the end everyone becomes dust. Death is the great equalizer, and this gives the play a universal message that still makes sense today.
