

1: Business activity

### Revision checklist

- Business activity combines the factors of production to produce goods and services that meet consumer needs and wants.
- The economic problem and the problem of scarcity are due to unlimited needs and wants of consumers which cannot be met by businesses because they have limited factors of production. Choices must be made and this creates an opportunity cost.
- Specialisation of both labour and capital helps businesses to produce more goods and services at a lower cost.
- Businesses add value by taking raw materials and turning these into goods and services that they can sell to consumers.
