James Dodds, a theologian and historian with deep roots in doctrinal teaching, brings his extensive background to bear in this work. His own spiritual journey and experiences in both ministry and academia inform his reflections on the Creed, allowing him to approach complex theological concepts with clarity and conviction. Dodds' dedication to fostering a deeper comprehension of Christian tenets is evident throughout as he navigates through the nuances of faith with a pastor's heart. This book is highly recommended for readers seeking to enhance their understanding of Christian orthodoxy and its historical foundations. It serves as a reminder that the Reformed tradition did not see itself as separate from the universal church, though it was principally opposed to Rome. Rather, Olevianus and his tradition argue for a Reformed catholicity rooted in the ancient confession of the church. This translation by Lyle D Bierma, along with R Scott Clark's historical introduction, will benefit both scholarly and general readers. Charged with federal language, *An Exposition* explains the Christian faith as the believer's fellowship with God in the covenant of grace. Thus, it is significant for its contribution to the development of Reformed covenantal theology. In addition to exhibiting its historical value within the Reformed tradition, readers will be directed, as Olevianus had intended, toward edification in true and sound piety.
