[The Eastern Frontier](#) Robert Haug,2019-06-27 Transoxania Khurasan and ukharistan which comprise large parts of today s Central Asia have long been an important frontier zone In the late antique and early medieval periods the region was both an eastern political boundary for Persian and Islamic empires and a cultural border separating communities of sedentary farmers from pastoral nomads Given its peripheral location the history of the eastern frontier in this period has often been shown through the lens of expanding

empires However in this book Robert Haug argues for a pre modern Central Asia with a discrete identity a region that is not just a transitory space or the far flung corner of empires but its own historical entity From this locally specific perspective the book takes the reader on a 900 year tour of the area from Sasanian control through the Umayyads and Abbasids to the quasi independent dynasties of the Tahirids and the Samanids Drawing on an impressive array of literary numismatic and archaeological sources Haug reveals the unique and varied challenges the eastern frontier presented to imperial powers that strove to integrate the area into their greater systems This is essential reading for all scholars working on early Islamic Iranian and Central Asian history as well as those with an interest in the dynamics of frontier regions American Journal of Islamic Social Sciences 21:4 Carool Kersten,Ahmad F.
