Abc Disney:

The Oxford Handbook of the Disney Musical Dominic Broomfield-McHugh, Colleen Montgomery, 2025-03-28 The Oxford Handbook of the Disney Musical both celebrates and critiques one of the most enduring global phenomena and considers many of the studio's most popular animated films as well as Disney's extraordinarily rich activities such as video games, theme parks, and television. By using new insights from the archives and bringing together a range of disciplinary perspectives, the Handbook presents an accessible but rigorous exploration of a century of cultural impact of the Walt Disney Company.

Why TV Is Not Our Fault Eileen R. Meehan, 2005-11-03 For more than five decades we've been told by pundits, commentators, advertisers, scholars, and politicians that television is both a window on the world and a mirror reflecting our culture. We've been led to believe that it shows us the world's events through news programs and through entertainment programs that reflect the preferences, values, beliefs, and understandings shared by most Americans. We're told that if you don't like what you see on TV, don't blame the industry; blame yourself. This book dispels the myth that the television industry is just giving viewers the programming they want to see and thus we, as viewers, are responsible for the existence of shows like *Fear Factor* and yet another *Survivor*. In fact, Eileen Meehan explains, viewers exert no demand in the market for ratings, advertising slots, program production, or telecasting. She also counters the idea that TV programs reflect our culture directly. Introducing us to the political economy of television, Meehan covers programming, corporate strategies, advertising, the misnomer of competition among networks, and organizations that seek more industry accountability. She tells us why TV isn't our fault—and who's really to blame.

This Business of Television Howard J. Blumenthal, Oliver R. Goodenough, 2006 This publication reflects the changes in television both domestically and internationally and is a useful guide to the legal, economic, and production aspects of the industry.

Mass Media Unleashed Carl R. Ramey, 2007 Everyone complains about mass media, but only the FCC and Congress are expressly empowered to do something about it, and that's why America deserves better from its media policymakers. *Mass Media Unleashed* touches on the key issues stirring the current debate over mass media policy, such as consolidation, the steady dismantling of regulatory standards, the roles mass media must play but increasingly fail to perform in today's helter-skelter world, and the vastly different ways these media are now delivered to and used by busy on-the-go Americans. Carl Ramey, a long-time Washington communications lawyer, has observed the policymaking process up close and personal for thirty years. Warning that time is running out for taking actions that will make a real difference, Ramey shines a critical light on the massive transformation of government policy that has taken place since 1980 and has led to vast changes in today's electronic media: more consolidation, less public service, and everything ruled by the bottom line. Before the game is over, Washington policymakers must step to the plate and hit a home run for America, scrapping the old regulatory system and writing an entirely new policy script that for the first time is specifically designed to guarantee a broadcast service that is free, local, and dedicated to serving Americans as citizens, not just as

consumers This provocative read is a must for everyone concerned about mass media's responsibilities and the policies that shape them

Who Owns the Media? Benjamin M.
