Abortion Dialogue:

Civil Dialogue on Abortion Bertha Alvarez Manninen, Jack Mulder, Jr., 2018-02-07 Civil Dialogue on Abortion provides a cutting edge discussion between two philosophy scholars on each side of the abortion debate Bertha Alvarez Manninen argues for her pro choice view but also urges respect for the life of the fetus while Jack Mulder argues for his pro life view but recognizes that for the pro life movement to be consistent it must urge society to care more for the vulnerable Coming together to discuss their views but also to seek common ground the two authors show how their differing positions nevertheless rest upon some common convictions The book helps to provide a way forward for a divide that has only seemed to widen the aisle of public discourse in recent years This engaging book will prove essential reading for students across multiple disciplines including applied ethics medical ethics and bioethics but will also be of interest to students of religious studies and women s studies

In Search of Common Ground on Abortion Robin West, Justin Murray, Meredith Esser, 2016-05-23 This book brings together academics legal practitioners and activists with a wide range of pro choice pro life and other views to explore the possibilities for cultural philosophical moral and political common ground on the subjects of abortion and reproductive justice more generally It aims to rethink polarized positions on sexuality morality religion and law in relation to abortion as a way of laying the groundwork for productive and collaborative dialogue Edited by a leading figure on gender issues and emerging voices in the quest for reproductive justice a broad concept that encompasses the interests of men women and children alike the contributions both search for common ground between opposing positions in our struggles around abortion and seek to bring balance to these contentious debates The book will be valuable to anyone interested in law and society gender and religious studies and philosophy and theory of law

Susskind, Sarah McKearnen, Jennifer Thomas-Lamar, 1999-08-09 This handbook on group decision making for those wanting to operate in a consensus fashion stresses the advantages of informal common sense approaches to working together It describes how any group can put these approaches into practice and relates numerous examples of situations in which such approaches have been applied

The Way Out Peter T. Coleman, 2021-06-01 The partisan divide in the United States has widened to a chasm Legislators vote along party lines and rarely cross the aisle Political polarization is personal too and it is making us miserable Surveys show that Americans have become more fearful and hateful of supporters of the opposing political party and imagine that they hold much more extreme views than they actually do We have cordoned ourselves off we prefer to date and marry those with similar opinions and are less willing to spend time with people on the other side How can we loosen the grip of this toxic polarization and start working on our most pressing problems The Way Out offers an escape from this morass The social psychologist Peter T Coleman explores how conflict resolution and complexity science provide guidance for dealing with seemingly intractable political differences Deploying the concept of attractors in dynamical systems he explains why we are stuck in this rut as well as the unexpected ways that

deeply rooted oppositions can and do change Coleman meticulously details principles and practices for navigating and healing the difficult divides in our homes workplaces and communities blending compelling personal accounts from his years of working on entrenched conflicts with lessons from leading edge research The Way Out is a vital and timely guide to breaking free from the cycle of mutual contempt in order to better our lives relationships and country

Abortion and Dialogue Ruth Colker,1992-09-22 The issues she takes on are crucial not solely the subject areas of reproductive rights and law or public policy lenses and judicial impact in women s and children s lives but also the more difficult and fundamental questions of how these hot topics can be approached so as to make the most of the good will of all and the force of free discussion for social learning she brings a strong evolving and distinctive perspective to the discussion Emily Fowler Hartigan In Abortion and Dialogue Ruth Colker argues that the state falsely views the woman and the fetus as having conflicting needs when it intervenes in decisions regarding pregnancies Colker s feminist theological perspective on reproductive health issues encourages both pro choice and pro life advocates to consider how the value of life is implicated in discussions of reproduction Colker argues that theology can contribute to our understanding if we apply the concepts of love compassion and wisdom to problems identified by feminist theory and to actual concrete situations the impact of abortion regulations on poor female adolescents the judicial treatment of abortion regulations state intervention into women s decision making during pregnancies carried to term Colker concludes by examining effective and respectful family planning strategies that truly help women in making reproductive choices

Doorstep Democracy James H. Read,2008 The famous Tip O Neill axiom all politics is local comes alive in this chronicle of Democrat James H Read s hard fought but unsuccessful by 98 votes bid for state legislature in the socially conservative communities of Stearns and Morrison Counties Minnesota Read door knocked 7 500 households during his campaign visiting with voters and engaging in genuine dialogue on doorsteps from St Anthony to St Joseph At once a memoir of a hard fought contest and a meditation on the state of American democracy Read s work contrasts the modern media driven political campaign where candidates glean their knowledge of voters from pollsters and communication only flows one way with the kind of true understanding of constituents and issues that can only grow from individual encounters Face to face doorstep conversations he claims give a candidate or volunteer and voter an opportunity to truly persuade and learn from one another In a district where the pro life movement dominated politics Read s invitation to honestly discuss abortion and reject single issue politics resonated with many voters Refusing the red state versus blue state view of American voters Doorstep Democracy shows the power and importance of kitchen table politics people sitting down together to tackle the issues that affect us and proves that voters and candidates can be convinced to change their minds Read ultimately demonstrates how conversations between citizens concerned about their communities can get us beyond the television ads mass mailings and sound bites to rejuvenate American democracy

Violence against Women under International Human Rights Law Alice Edwards,2010-12-23 Since the mid 1990s increasing international attention has been paid to the issue of violence against women However there is still no explicit international human rights treaty prohibition on violence against women and the issue remains poorly defined and understood under international human rights law Drawing on feminist theories of international law and human rights this critical examination of the United Nations legal approaches to violence against women analyses the merits of strategies which incorporate women s concerns of violence within existing human rights norms such as equality norms the right to life and the prohibition against torture Although feminist strategies of inclusion have been necessary as well as symbolically powerful for women the book argues that they also carry their own problems and limitations prevent a more radical transformation of the human rights system and ultimately reinforce the unequal position of women under international law
