Abortion Practice In Britain And The United States:

Abortion Practice in Britain and the United States Colin Francome,1986-01-01 [Abortion in the USA and the UK](#)
Colin Francome,2017-05-15 Recent years have revealed the different experiences of abortion in the UK and the USA The United States has a higher abortion rate accompanied by a higher political profile for the issue In fact one of George W Bush s first acts in 2001 was to ban American funding for overseas organizations carrying out abortions The USA has also experienced a higher degree of abortion related violence with several people linked to abortion services being targeted and even killed Compelling and enlightening in its approach this invigorating volume compares the two countries abortion laws and outlines the distinctions The usually conservative American society has a much more liberal abortion law than the United Kingdom whose female citizens can obtain an abortion relatively easily although in fact they do not have the right to choose This stimulating volume examines the comparative positions taken by each country and makes important suggestions for the future

Abortion in the United States Dorothy E. McBride,2007-10-16 This work is a balanced presentation of the pro life pro choice controversy showing all aspects of the debate and why it is so difficult to resolve Abortion in the United States A Reference Handbook offers a balanced objective look at the ultimate wedge issue in American culture This volume offers a revealing history of abortion politics and policy from the 1800s to Roe v Wade to the present with clear analyses of disputes such as public funding for abortion the status of the fetus contraception abortion as a litmus test for candidates and judicial nominees and more A separate chapter looks at abortion politics throughout the world and places the United States in a global context Biographies of major players extensive data and documents and a bibliography of important resources make this an essential resource on one of the most controversial topics in our national dialog

[Abortion](#) Patricia Lunneborg,1992-01-27 This book couldn t be more welcome more timely It takes an overlooked position that abortion is not the lesser of two evils but a positive turning point in many women s lives In addition to absorbing countless studies Lunneborg talked with more than 100 women who have had abortions as well as with health care workers and counselors She found that most women do not regret their decision Many found it to be a key reassessment point in their lives they looked at the directions their lives were heading their relationships their attitudes toward their bodies their methods of birth control and they made significant changes Although definitely prochoice Lunneborg s effort balances antichoice propaganda that paints women who have abortions as irresponsible and selfish for the women Lunneborg

presents are thoughtful and articulate Lunneborg says she wrote the book to help women through the abortion decision making process and to give health care workers and counselors more information when working with patients But really it ought to be required reading for anyone embroiled in an abortion debate Booklist The first book to focus on abortion decision making this self help counseling resource takes a decidedly positive stance Challenging the view that abortion is the lesser of two evils Patricia Lunneborg maintains that it is moral life enhancing supportive to families and beneficial to the lives of millions of women Opposing public opinion that abortion is acceptable only in special cases she contends that the best reason to have an abortion is simply the desire not to bear an unwanted child Bashing the concept of the so called Postabortion Stress Syndrome she reports positive aftereffects such as feelings of relief a new sense of control over one s life and increased maturity Lunneborg a retired professor of psychology and women s studies bases her views on over 100 interviews with women who have had abortions and with abortion providers as well as research findings and her own experiences What s more in these pages she allows women who have had abortions to share what they learned about themselves how their dreams for education and career were positively affected how the children they chose to have are benefiting from their decision Perhaps most important many of the women tell of tremendous personal growth resulting from making a considered choice to have an abortion for some their first major decision Clearly stating her perspective at the outset Lunneborg describes those who have abortions women of all ages ethnic backgrounds and walks of life and who provides the procedure She offers strategies for making the decision discusses teenage situations explains how to use the experience as an opportunity for reassessment and growth and stresses the value of talking about abortion both for women who have had the procedure and for other people who are often unaware of the positive effects A complete presentation her book also sheds light on counseling before and after an abortion contraception family planning the impact on education and careers effects on relationships with others and the work of the dedicated group of people who provide abortions Throughout Lunneborg s tone is conversational warm easy to read Indispensable for any woman considering the procedure Abortion A Positive Decision also provides invaluable help to women who seek a reaffirming view of past abortion decisions psychotherapists and counselors and those who provide abortion services

Brief Reviewer Bio Metasebia Woldemariam Ph D is an associate professor of communication and media studies at Plymouth State University who specializes in media representations of deviancy and otherness

Mediated Deviance and Social Otherness Interrogating Influential Representations is an erudite collection offering critical and cultural analysis of media representations within various media forms including journalism film documentary television fiction music and the Internet

The book is divided into six sections that highlight the categories of deviance and otherness the contributors emphasize

- 1 Age
- 2 Crime and Criminals
- 3 Disease and Disability
- 4 Gender Race and Class
- 5 Sexual Orientation
- 6 Other Forms of Deviance

which include masochism carnival spectaculars and cultures of violence

While some chapters feature links to topics common to media studies such as the Motion Picture Production Code what is powerful about the collection is how varied the interpretive standpoints of the contributors are

An example of one such unique interpretive perspective comes from Linda K Fuller whose chapter examines the sexual political aspects of African AIDS related films based on her work in West Africa with a sexologist collating and critiquing appropriate media for Life Skills

This interpretive variety inspires novel examination of media representations through the originality of varied genres of analysis the collection offers analysis of classic as well as popular literature popular as well as veiled news media award winning as well as obscure television series and outlaw country music as well as rap music

Because media is so broadly interpreted within the collection readers are encouraged to view mass media as a crucial cultural landscape for meaning making

Each contributor offers a timely perspective about past or contemporary society through the analysis of unique media genres and artifacts or even through analysis of representations in multiple media forms

For example Annette Holba examines multiple forms of the media representations of a less emphasized person in the Lizzie Borden case Borden's stepmother

Editor Kylo Patrick R Hart's own contribution examines multiple media representations of the visible physical signs of AIDS before focusing on their representation in two particularly noteworthy film melodramas

Rather than focusing on stereotypical categories of deviance and otherness the contributors focus on less commonly acknowledged representations or challenge commonly acknowledged understandings of media

This is evident through Christopher J P rez's ethnographic observation of instant messages from Gay.com participants which dispels the notion that such online communities allow for positive expressions of gay identity

Through its broad interpretation of media the collection offers an ample array of less commonly acknowledged media genres as evident in Margaret Weigel's class analysis of the electric bulb advertising sign spectaculars in Manhattan from 1892 to 1917

Wendy Korwin's visual analysis of a set of four image plates used within prescriptive literature and Amanda Klein's cinematic comparison of portrayed deviance in the 1950s juvenile delinquency teenpic and the 1990s ghetto action film Incorporated also are unique perspectives on traditional news media representations as in Thomas Grochowski's interpretation of celebrity defendant perspectives of O J Simpson

Occasionally

common themes thread particular chapters together allowing opportunities to understand how critics view the same or similar media differently For example David Sealy and Georges Claude Guilbert as well as Valentin Locoge offer analysis of the HBO television series OZ Additionally contemporary moral dilemmas and societal issues are covered as they appear in various media representations as when Barbara Barnett s discussion of journalistic representations of maternal infanticide and perfection appear alongside Robert Goff s analysis of the textured view of abortion provided by the film Vera Drake Hart s collection is important to expanding the scholarly understanding of media representations because it provokes thinking about what makes media mean so much to humans in particular social cultural historical and even technological contexts The issue of the detrimental effects of shared notions of deviance and social otherness is evident in chapters that highlight original perspectives useful for either scholarly analysis or challenging graduate level classroom discussions Also because the collection includes literary analysis it could serve well those with interest in literary criticism ELESKA RUMINSKI Ph D is an assistant professor of English at Indiana University of Pennsylvania with experience teaching mass communication film studies and visual communication
