Dealing With Dictators:

Dealing with Dictators Ernest R. May, 2006 The United States continues to proclaim its support for democracy and its opposition to tyranny but American presidents often have supported dictators who have allied themselves with the United States This book illustrates the chronic dilemmas inherent in US dealings with dictators under conditions of uncertainty and moral ambiguity Dealing with Dictators offers in depth analysis of six cases the United States and China 1945 1948 UN intervention in the Congo 1960 1965 the overthrow of the Shah of Iran US relations with the Somoza regime in Nicaragua the fall of Marcos in the Philippines and US policy toward Iraq 1988 1990 The authors fascinating and revealing accounts shed new light on critical episodes in US foreign policy and provide a basis for understanding the dilemmas that US decision makers confronted The chapters do not focus on whether US leaders made the right or wrong decisions but instead seek to deepen our understanding of how uncertainty permeated the process and whether decision makers and their aides asked the right questions This approach makes the book invaluable to scholars and students of government and history and to readers interested in the general subject of how intelligence analysis interacts with policymaking

The Trade Trap Mathias Döpfner, 2023-09-19 Global business leader Mathias Döpfner offers a compelling Gideon Rachman chief foreign affairs columnist for Financial Times and revolutionary road map to reshape global trade strengthen our democracy and safeguard our freedoms Freedom is on the decline around the world Autocrats in Europe Asia and the Middle East are undermining our open societies human rights and the rule of law The Russian invasion of Ukraine was a wake up call for the West but the biggest threat remains China For two generations Americans and Europeans have believed that change will come through trade but instead of dictatorships becoming more like Western democracies unfettered free trade has strengthened our enemies and undermined our countries We are caught in a trade trap faced with the decision to choose either opportunism and submission or opposition and emancipation In Dealing with Dictators one of the world's most powerful business leaders traces the rise and costs of Western dependency on China and Russia And he suggests a radical new approach to free trade The establishment of a new values based alliance of democracies Membership is based on the adherence to three very simple criteria the rule of law human rights and sustainability targets Countries that comply with these criteria can engage in tariff free trade with others Those who don't will pay prohibitive tariffs Sharing the author's encounters with major global figures including Vladimir Putin Recep Tayyip Erdogan George W Bush Angela Merkel Jack Ma and more Dealing with Dictators offers personal insight into the dangerous consequences of doing business with autocrats along with a bold proposal for a values based trade policy
