Dealing With The Dutch:

Dealing with the Dutch Jacob Vossestein,2004 People from all corners of the world involved in government business and culture come into contact with Dutch colleagues and counterparts either in the Netherlands or in their own countries No matter whether you are coming to the Netherlands for a business trip or to work here for a while or have regular contact with Dutch people in your own country being prepared for Dutch culture will make your working and social contacts more effective and therefore more satisfactory Like the very successful first edition published in 1997 and the updated version published in 2001 this 14th revised and updated edition of *Dealing with the Dutch* focuses on Dutch values and norms but it also takes into account the economic social and cultural changes the Netherlands is undergoing Many new quotes by people from all over the world who have already dealt with the Dutch have also been added *Dealing with the Dutch* Jacob Vossestein,2010 Whether you are coming to the Netherlands on a business trip or to work here for a while or you have regular contacts with Dutch people in your own country being prepared for Dutch culture will make your stay more effective and your interactions more satisfactory People from all corners of the world involved in government business academic studies and culture come into contact with the Dutch and may be taken aback by their directness their critical attitude and their sometimes slow decision making processes just a few of the characteristics that are immediately noticed Fortunately there are many good attributes too For example the Dutch may drive a hard bargain but once agreement has been reached their word is their bond As in previous editions this updated version of *Dealing with the Dutch* focuses on Dutch values and norms but also takes into account the rather drastic economic social and cultural changes that the Netherlands is undergoing Some of these have hit the international press for their apparent contradictions of the general image of the country as being peaceful open minded and tolerant Book jacket **Dealing with the Dutch** Jacob Vossestein,2001 Whether you are going to the Netherlands on a business trip or to work there for a while or have regular contact with Dutch people in your own country being prepared for Dutch culture will make your stay more effective and your interactions more satisfactory People from all corners of the world involved in government business and culture come into contact with the Dutch and are often frustrated by their directness their critical attitude and their sometimes slow decision making processes This handy volume helps you to understand these characteristics and highlights the many good attributes of the Dutch as well too For example they may drive a hard bargain but once agreement has been reached their word is their bond As in previous editions this updated version of *Dealing with the Dutch* focuses on Dutch values and norms but also takes into account the economic social and cultural changes that the Netherlands is undergoing **How to Survive Holland** Martijn de Rooi,2007 Portret van Nederland en de Nederlanders *Dealing with the Dutch* ,2012 **Act Normal!** Hans Kaldenbach,1995 Uitleg van Nederlandse gewoonten en gebruiken die voor buitenlanders uit een andere cultuur gemakkelijk tot misverstanden kunnen leiden *The Principles of European Contract Law and Dutch Law:A Commentary* Ewoud H. Hondius,H. J. Van

Kooten,2002-08-27 The topic of harmonisation of European private law and European contract law in particular is rapidly gaining in importance The topic is not only widely studied by academics and students all over Europe and even beyond it is also on the political agenda of the European Parliament the European Commission and the European Council The most important achievement in this field is no doubt the Principles of European Contract Law PECL drafted by the Commission on European Contract Law The European Commission considers the PECL to be a serious option for further harmonisation of European contract law within the European Union This publication is the first to provide a systematic overview of the PECL in comparison with Dutch contract law as a whole The book is concise and because of its structure it is easily accessible Amongst the contributors there are many highly distinguished contract law specialists It may be used at universities in courses on Comparative Law European Private Law and European Contract Law It may also be used by international practitioners foreign students and academics interested in Dutch contract law who do not have access to Dutch contract law because they have no knowledge of the Dutch language Last but not least the book will be of interest to all jurists interested in the harmonisation of the European Private Law

Dealing with the Dutch Jacob Vossestein,1998 Handleiding voor tijdelijk in Nederland verblijvende buitenlanders werkzaam bij ondernemingen of wetenschappelijke instellingen **Dutch Americans** Linda Pegman Doezema,1979 **The Dutch Alliance and the War Against French Trade, 1688-1697** Sir George Norman Clark,1923 *The International Order of Asia in the 1930s and 1950s* Nicholas J. White,2016-03-03 This book reconsiders the nature and formation of Asia s economic order during the 1930s and 1950s in light of the new historiographical developments in Britain and Japan Recently several Japanese economic historians have offered a new perspective on Asian history arguing that economic growth was fuelled by the phenomenon of intra Asian trade which began to grow rapidly around the turn of the 19th 20th centuries On the other side British imperial historians P J Cain and A G Hopkins have presented their own interpretation of gentlemanly capitalism in which they emphasize the leading role of the service sector rather than that of British industry in assessing the nature of the British presence overseas In order to assess and test these new perspectives this volume addresses three key issues The first is to reconsider the metropolitan peripheral relationship in Asia focusing particularly on the role of the sterling area and its implications for Asian economic development The second is to examine the formation of inter regional trade relations within Asia in the 1930s and their revival and transformation in the 1950s The final issue is the comparison of the international order of Asia of the 1930s with the 1950s and the degree to which the Second World War represented a break point in Asia s economic development Dealing with issues of trade economy nationalism and imperialism this book provides fresh insights into the development of Asia during the mid twentieth century Drawing on the latest scholarship it will prove invaluable to all who wish to better understand the position of countries such as Japan China India Singapore Malaysia and Korea within the wider international order **The Dutch Founding of New York** Thomas Allibone Janvier,1903 Timehri ,1912 Reports and proceedings of the society are
