Death Feast In Dimlahamid:

A Death Feast in Dimlahamid Terry Glavin, 1998 Gitksan and Wet suwet en history and culture background to the aboriginal title action Delgamuukw versus the Queen decision of the Supreme Court of Canada in December 1997 no Australian Aboriginal content *Becoming Tsimshian* Christopher F. Roth, 2011-01-01 The Tsimshian people of coastal British Columbia use a system of hereditary name titles in which names are treated as objects of inheritable wealth Human agency and social status reside in names rather than in the individuals who hold these names and the politics of succession associated with names and name taking rituals have been and continue to be at the center of Tsimshian life *Becoming Tsimshian* examines the way in which names link members of a lineage to a past and to the places where that past unfolded At traditional potlatch feasts for example collective social and symbolic behavior gives the person to the name Oral histories recounted at a potlatch describe the origins of the name of the house lineage and of the lineage s rights to territories resources and heraldic privileges This ownership is renewed and recognized by successive generations and the historical relationship to the land is remembered and recounted in the lineage s chronicles or adawx In investigating the different dimensions of the Tsimshian naming system Christopher F Roth draws extensively on recent literature archival reference and elders in Tsimshian communities *Becoming Tsimshian* which covers important themes in linguistic and cultural anthropology and ethnic studies will be of great value to scholars in Native American studies and Northwest Coast anthropology as well as in linguistics **Encyclopedia of Native American Music of North America** Timothy Archambault, Elaine Keillor, John M. H. Kelly, 2013-03-27 This book is a one stop reference resource for the vast variety of musical expressions of the First Peoples cultures of North America both past and present *Encyclopedia of Native American Music of North America* documents the surprisingly varied musical practices among North America s First Peoples both historically and in the modern context It supplies a detailed yet accessible and approachable overview of the substantial contributions and influence of First Peoples that can be appreciated by both native and nonnative audiences regardless of their familiarity with musical theory The entries address how ethnomusicologists with Native American heritage are revolutionizing approaches to the discipline and showcase how musicians with First Peoples heritage are influencing modern musical forms including native flute orchestral string playing gospel and hip hop The work represents a much needed academic study of First Peoples musical cultures a subject that is of growing interest to Native Americans as well as nonnative students and readers **White Man's Law** Sidney L. Haring, 1998-01-01 In this sweeping re investigation of Canadian legal history Haring shows that Canada has historically dispossessed Aboriginal peoples of even the most basic civil rights [Respect and Responsibility in Pacific Coast Indigenous Nations](#) E. N. Anderson, Raymond Pierotti, 2022-10-12 This book examines ways of conserving managing and interacting with plant and animal resources by Native American cultural groups of the Pacific Coast of North America from Alaska to California These practices helped them maintain and restore ecological balance for thousands of years Building

upon the authors and others previous works the book brings in perspectives from ethnography and marine evolutionary ecology The core of the book consists of Native American testimony myths tales speeches and other texts which are treated from an ecological viewpoint The focus on animals and in depth research on stories especially early recordings of texts set this book apart The book is divided into two parts covering the Northwest Coast and California It then follows the division in lifestyle between groups dependent largely on fish and largely on seed crops It discusses how the survival of these cultures functions in the contemporary world as First Nations demand recognition and restoration of their ancestral rights and resource management practices

Stardust Bruce Serafin, 2007-11-20 WINNER of the EDNA STAEBLER AWARD for CREATIVE NON FICTION From its opening image of the varied workforce at a Vancouver postal station Stardust is a series of literary essays defining Bruce Serafin s world The teenage Serafin is a captivating figure freshly arrived from the United States and eager to immerse himself in the particular delights of a still largely frontier era Vancouver As a young man enrolled at SFU he refuses the perm pressed upon him in a Chinatown barber shop and eavesdrops on his rowdy neighbours in a Powell Street apartment house Working in the post office Serafin discovers Michel Tremblay s The Fat Woman Next Door is Pregnant and realizes for the first time that writing about working class people is not only possible but desirable Later Serafin embarks upon an intimate criticism of touchstones of Western culture Roland Barthes and Daniel Defoe are counterparts he suggests and shows why Leonard Cohen was read so avidly by the young proto hippies of the era not because of his writing but because he physically modelled a way to be cool The ceremonial objects collected by anthropologists according to Serafin are not actually art but something else again Serafin critiques literary magazines and western novels He discusses the work of Don DeLillo Terry Glavin Steve McCaffery Northrop Frye and William Henry Drummond There s an engagement to these essays that lightly sketches the workings of a mind forever learning

Climate Justice and the Economy Stefan Gaarsmand Jacobsen, 2018-05-15 As climate change has increasingly become the main focus of environmentalist activism since the late 1990s the global economic drivers of CO2 emissions are now a major concern for radical greens In turn the emphasis on connected crises in both natural and social systems has attracted more activists to the Climate Justice movement and created a common cause between activists from the Global South and North In the absence of a pervasive narrative of transnational or socialist economic planning to prevent catastrophic climate change these activists have been eager to engage with advanced knowledge and ideas on political and economic structures that diminish risks and allow for new climate agency This book breaks new ground by investigating what kind of economy the Climate Justice movement is calling for us to build and how the struggle for economic change has unfolded so far Examining ecological debt just transition indigenous ecologies social ecology community economies and divestment among other topics the authors provide a critical assessment and a common ground for future debate on economic innovation via social mobilization Taking a transdisciplinary approach that synthesizes political economy history
