Schwartz,2016-07-26 Water scarcity is on everyone s mind Long taken for granted water availability has entered the realm of economics politics and people s food and lifestyle choices But as anxiety mounts even as a swath of California farmland has been left fallow and extremist groups worldwide exploit the desperation of people losing livelihoods to desertification many are finding new routes to water security with key implications for food access economic resilience and climate change Water does not perish nor require millions of years to form as do fossil fuels However water is always on the

  Mediated Political Realities Dan D. Nimmo,James E. Combs,1990 This argues that most people learn about politics from information imparted by mass media and that our opinions are shaped by the sources of that information The authors also contend that political reality is transformed or mediated into fantasy and reality disappears   **The New Statesman** ,1914
