**Aboriginal Lore of the Western Plains** Barbara Mullins, Trevor Cook, John Gerritsen, 1982 The Convict Valley Mark Dunn, 2020-06-02 The story of the second British penal settlement in Australia where a notoriously brutal convict regime became the template for penal stations in other states Mark Dunn explores relations between the white settlers and the local Aboriginal landholders and uncovers a long forgotten massacre Shortlisted for the Prime Minister's Award for Australian History 2021 In 1790 five convicts escaped Sydney by boat and were swept ashore near present day Newcastle They were taken in by the Worimi people given Aboriginal names and started families Thus began a long and at times dramatic series of encounters between Aboriginal people and convicts in the second penal settlement in Australia The fertile valley of the Hunter River was the first area outside the Sydney basin explored by the British and it became one of the largest penal settlements Today manicured lawns and prosperous vineyards hide the struggle violence and toil of the thousands of convicts who laid its foundations The Convict Valley uncovers this rich colonial past as well as the story of the original Aboriginal landholders While there were friendships and alliances in the early years in the later scramble for land in the 1820s as the Valley was opened to free settlers tensions rose and bloodshed ensued With fascinating stories about convicts white settlers and the Aboriginal inhabitants that have long been forgotten The Convict Valley is a new Australian history classic Deeply researched and beautifully written Professor Grace Karskens Interweaving the Aboriginal convict and mining pasts of the Hunter Valley gifted storyteller Dunn reveals the missing and misunderstood complexities of these histories Professor John Maynard In this groundbreaking book Mark Dunn shows how the Hunter Valley became the heartland of convict Australia Professor Lyndall Ryan *Annual Archæological Report* Toronto. Jones, 2022-08-30 This book offers an original framework on how to investigate understand and translate sense of place at a regional scale The book explores contemporary sense of place theory and practice drawing upon the Western District of Victoria in Australia being the Country of the White Cockatoo It offers a unique multi temporal and thematical analytical approach towards comprehending and mapping the values that underpin and determine strengths of human relationships and nuances to this landscape Included is a deep ethno ecological and cross cultural translation that takes the reader through both the Western understanding of sense of place as well as the Australian Aboriginal understanding of Country Both are different intellectual constructions of thoughts values and ideologies but which share numerous commonalities due to their archetypal meanings feelings and values transmitted to humans Sessional Papers Ontario, 1924 **A History of the Study of the Indigenous Languages of North America** Marcin Kilarski, 2021-12-06 The languages indigenous to North America are characterized by a remarkable genetic and

typological diversity Based on the premise that linguistic examples play a key role in the origin and transmission of ideas within linguistics and across disciplines this book examines the history of approaches to these languages through the lens of some of their most prominent properties These properties include consonant inventories and the near absence of labials in Iroquoian languages gender in Algonquian languages verbs for washing in the Iroquoian language Cherokee and terms for snow and related phenomena in Eskimo Aleut languages By tracing the interpretations of the four examples by European and American scholars the author illustrates their role in both lay and professional contexts as a window onto unfamiliar languages and cultures thus allowing a more holistic view of the history of language study in North America
