**California Infant/toddler Curriculum Framework** California. Department of Education,California. Child Development Division,2012

The purpose of the Infant Toddler Curriculum Framework is to provide early childhood professionals with a structure they can use to make informed decisions about curriculum practices. The framework is based on current research on how infants and toddlers learn and develop in four domains described in the Infant Toddler Learning and Development Foundations: social, emotional, language, intellectual, and perceptual, and motor development. It presents principles, a planning process, and strategies to assist teachers in their efforts to support children's learning from birth to three years of age. Heaven on Earth Sharifa Oppenheimer, 2006. Through art, storytelling, and the festival celebrations, this book is a guide to build a family culture based on the guiding principle of love. Such a culture supports children and allows the free development of each unique soul. Responding to parents' questions from more than twenty years of teaching, Oppenheimer has created a gift from the heart. This is a practical, inspiring resource that brings her informed, intuitive understanding of young children into the heart of the home. **The Publishers Weekly**, 2003. Guías para programas de aprendizaje y desarrollo infantil, 2010.

See how They Grow Sue Martin, Jennifer Eileen Berke, 2007. See How They Grow: Infants and Toddlers is a book that offers an overview of the growth and development of infants and toddlers from the neonate stage through the age of three. There is special emphasis on the phenomenological approach. This approach requires that the caregiver adopts a perspective that leads to a more human and responsive understanding of each child. This approach is combined with the scientific methodology, allowing the caregiver to achieve a level of improved competence, becoming reflective practitioners. There is careful consideration of cultural differences in the book due to the ever-present and increasing diversity of the US population. This allows the caregiver to be fully aware of how culture, beliefs, and traditions can influence the ultimate development of a child. The early chapters describe the philosophy of the book and explain various methods of observation. They also provide a baseline of information on growth and development. Further chapters focus on development in 3-month spans, leading to the full examination of how children grow and change rapidly in all domains: physical, emotional, social, cognitive, and language. Developmental variations and alerts are considered at each level, including health and safety issues, as well as potential signs of abuse and neglect. The book includes multiple learning tools, including key terms and words of wisdom, as well as an online companion. The reader will benefit fully from this thoughtful reference, based in the acknowledgment that all children are competent and powerful learners. **Maternal & Child Nursing Care** Marcia L.
